

'THEY MADE ME THE GOAT' SAYS DOLAN

FEAR PLANES MAY BOMB PEKING

Protest Against Delivery of Eighteen Machines Is Handed to French

PEKING, Oct. 2.—Formal protests have been handed the French legation here by the Peking government over the shipment of eighteen airplanes on the steamer Chantilly en route from Hongkong to Mukden for Chang Tso Lin's forces there.

Reinforced by these airplanes, it was thought possible here today that Chang could make good his threat to bombard Peking, since planes he now has are daily bombing Shanghai Kuan.

OPERATE ON BRAIN OF GARDNER

Notorious Train Robber to Submit to Surgery for Curing Crime Urge

LOS ANGELES, Oct. 2.—Preparations for a brain operation to be performed upon Roy Gardner, notorious train robber, serving a term in Leavenworth penitentiary, were being completed today, according to word received here by L. S. Sonney, the sheriff who became nationally famous when he arrested Gardner following a long search.

Notification was sent to Sonney by Dollie Gardner, wife of the bandit, who has been working to bring about the operation since eminent surgeons declared Gardner could be released from his criminal tendencies by an operation.

Sonney, who has been a friend of the Gardners since the time he arrested him and who shared the reward for the capture with Mrs. Gardner, declared the patient wife is starving herself in an effort to raise money for the medical treatment for her husband.

Disarmament Protocol Is Adopted by League

GENEVA, Oct. 2.—The League of Nations assembly today unanimously adopted the arbitration and protocol, including the Japanese amendment. There were forty-seven cast, all in favor of the protocol. Ratification was a foregone conclusion, as all the big powers reported there had indicated their approval. The document now will go before the respective governments. France led in the support of the document. Former Premier Briand called it "the most formidable obstacle against war ever devised."

Adoption of the arbitration and disarmament protocol is regarded as the first step towards calling an international disarmament conference. This will probably be done early next year.

China Threatens to Withdraw From League

GENEVA, Oct. 2.—The Chinese government today threatened to withdraw from the league unless China was elected a member of the council. When the vote was announced showing that the Chinese had not been elected, the Chinese delegates silently arose and filed from the hall.

La Follette to Start His Campaign Monday

WASHINGTON, Oct. 2.—Senator Robert M. La Follette, independent presidential candidate, will begin his nation-wide speaking campaign next Monday. Progressive headquarters announced today. The drive will open in Baltimore or Rochester, N. Y.

Circulate Petitions To Put Civic Center On November Ballot

Mustering their forces together again for action on the proposed civic center proposition, which was defeated at the bond issue election Tuesday, the executive committee of the Citizens' Bond committee started action today to have the civic center proposition placed on the ballot at the general election on November 4.

The committee, composed of L. H. Wilson, Percy Hayselden, H. M. Butts, O. M. Newby, Roy L. Kent and Alex Mitchell, met with the City Council this morning and learned the requirements for placing the issue on the ballot. Fifty petitions were put in circulation this morning by various citizens and it is expected that the necessary 1200 signatures will have been attained before tonight. The petitions will be presented to the city clerk and action will be taken by the City Council at a special session Saturday morning.

The petitions, one of which is on file at The Glendale Evening News, 139 South Brand boulevard, for any voter who may wish to sign it, read as follows:

"WHEREAS, on the 30th day of September, 1924, at a special municipal election held in the City of Glendale, the following proposition was submitted to the qualified electors:

"Shall the City of Glendale incur a bonded debt of Six Hundred Fifty Thousand Dollars (\$650,000.00) for the purpose of acquiring, constructing and completing the following municipal improvement, to-wit: The acquisition, construction and completion by the City of Glendale of certain municipal improvements in one group, heretofore approved by the Planning Commission of the City of Glendale as constituting a city plan, to-wit: The acquisition of that certain real property commonly known as the 'Harvard Street High School and Grounds,' including the necessary reconstruction of the buildings thereon for the purpose of providing a city hall, a public auditorium, a public library, a fire station, public comfort stations, a public gymnasium and a public playground?"

"AND WHEREAS, it appears that said proposition so submitted at such election failed to receive the requisite number of votes of the qualified voters voting at such election to incur the indebtedness for the purpose specified;

"NOW, THEREFORE, we, the undersigned, constituting more than fifteen (15) percentum of the qualified electors of the City of Glendale, California, computed upon the total number of votes cast therein for all candidates for governor at the last preceding election at which a governor was elected, hereby petition and request that said foregoing proposition, or a proposition substantially the same, be submitted at another election to be called and held on the 4th day of November, 1924, for the submission of such proposition, and that said election be held in accordance with the provisions of that certain Act of the Legislature entitled, 'An act authorizing the incurring of indebtedness by cities, towns and municipal corporations for municipal improvements, and regulating the acquisition, construction and completion thereof,' effective February 25th, 1901."

Members of the Citizens' Bond committee expressed the opinion today that the citizens would be given another chance to express their sentiment at the presidential election when a larger vote would be polled. It was also pointed out by committeemen that "Glendale should grasp the opportunity of taking over the proposed site for the civic center and not allow it to soon go into the hands of real estate dealers or speculators."

The bond committee also feels that the location for the civic center is ideal, since it is centrally located. They point out that a school bond election is soon to be called in Glendale and that if the civic center proposition is put through \$500,000 of the civic center bonds will go towards the school bonds.

Council to Act

O. M. Newby appeared before the City Council this morning with a request that a special session of that body be called for Saturday morning, October 4, for the purpose of instructing the city attorney to place the civic center issue on the November 4 ballot.

Councilman S. A. Davis argued it would be cheaper to call a special election later, but Mr. Newby declared that more voters turn out for a regular election, and that a special bond election for this proposition would conflict with the proposed school bond election.

The council agreed to adjourn at the close of today's session until Saturday morning, when the pros and cons of the matter will be thrashed out and it will be known definitely just how many voters signed the petition. Mr. Newby assured Ray L. Morrow, city attorney, that legal counsel would be retained without cost to the city, to assist him in pushing through the necessary proceedings to make the civic center an issue on November 4.

LATEST NEWS

CHARGES DEMOCRATIC COALITION SEEN

WASHINGTON, Oct. 2.—Charges that a "coalition" exists in the west between the Democrats and the La Follette independents "to prevent an election in November," were made here this afternoon by William M. Butler, chairman of the Republican national committee, following a conference with President Coolidge at the White House.

GIANTS LEAVE TO OPEN WORLD'S SERIES

NEW YORK, Oct. 2.—Shrunk by two members through scandal, the New York National league baseball club departed this afternoon on the Congressional Limited for Washington to play the first world series game with Washington Saturday. Manager McGraw, for reasons not made public, remained behind also. Hughie Jennings was in charge of the team.

GOVERNOR OF PANAMA CANAL ZONE QUILTS

WASHINGTON, Oct. 2.—Secretary of War Weeks announced today the resignation from the army of Colonel Jay J. Morrow, governor of the Panama canal zone. His resignation becomes effective October 16.

AIR RACING PROGRAM OPENED

Initial Event Won at Speed Of 95 Miles an Hour By Dayton Pilot

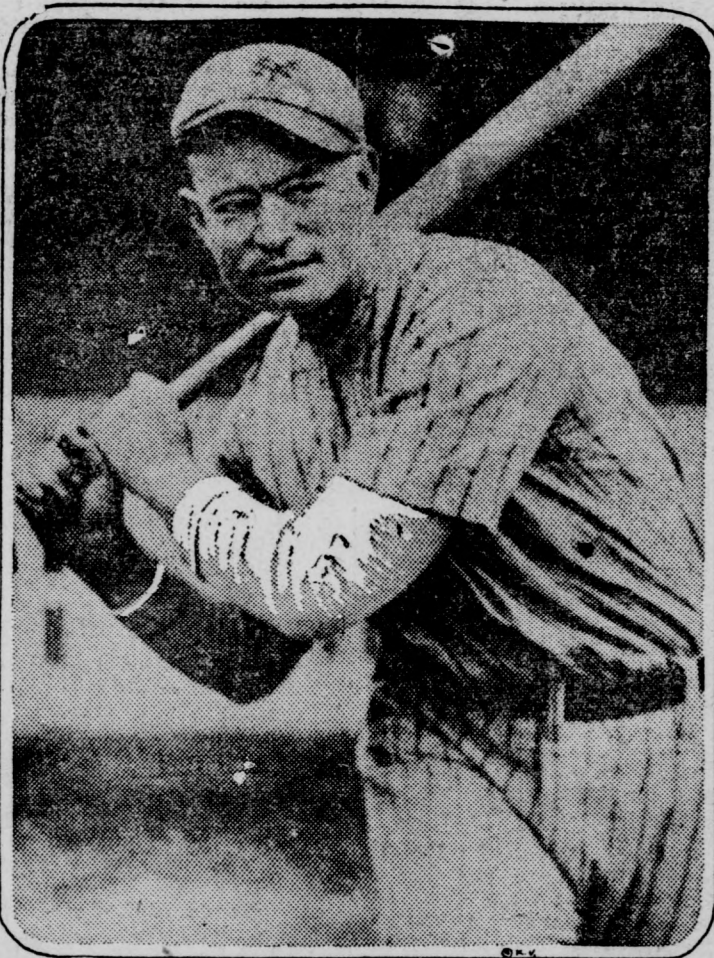

WILBUR WRIGHT FIELD, DAYTON, Ohio, Oct. 2.—Flying at an average speed of 97.45 miles an hour, Walter Lees of Dayton, in a Hartsell FC-1 plane, won the National Cash Register Co. trophy race here today, the first event on the international race program.

Twelve planes competed in the race. All finished. Pilot Lees, besides winning the trophy cup, was given \$1,000 in Liberty bonds for finishing first.

Perry Hutton, Chicago, in a Laid commercial plane, finished second; R. G. Page, piloting a Yackey sport OX-5, was third; A. E. Johnson, Dayton, in a new Swallow, was fourth, and Walter H. Beech, Wichita, driving a new Swallow 3-seater, finished fifth.

Government Probe on Gasoline to Continue

WASHINGTON, Oct. 2.—The department of justice's investigation of the gasoline situation, which has already resulted in anti-trust actions in the federal court at Chicago, may result in new prosecutions, Attorney General Stone said today. He said the probe was continuing along new lines.

Value Placed on 1924 Wheat Crop by Mellon

WASHINGTON, Oct. 2.—America's 1924 wheat crop will put \$1,000,000,000 in the hands of farmers, Secretary of the Treasury Mellon announced today, following an investigation of the situation at Chicago by Eugene Meyer, jr., managing director of the War Finance corporation.

Call Marines to Aid In Forest Fire Fight

SAN DIEGO, Oct. 2.—Armed with hoses, picks and shovels fifty marines, under command of Captain E. D. Howard, were called out from the local United States marine base at 2:30 o'clock this morning and hurried by truck to Descanso, forty-two miles east of here, to help fight the brush fire there. Three other fires were also reported today as burning in the San Diego back country at Palomar mountain, and in La Posta valley.

WORKERS ON STRIKE

HAVANA, Oct. 2.—Cuban sugar mills faced an indefinite cessation of operation here today, following the refusal of workers who walked out on a strike yesterday to return to their posts unless "appreciable increases in wages" are granted by employers.

'Jawn' And Prize Lemon

When "OLD JAWN" McGRAW (top) paid \$75,000 for JIMMY O'CONNELL, baseball fans told him he had picked a lemon. O'Connell failed to show up well in the months that followed, and now he has been forcefully retired from baseball by Commissioner Landis for an alleged bribery attempt.

GIANTS APPEAR TO HAVE EDGE IN PITCHING AT CLOSE OF SEASON'S WORK

By DAVIS J. WALSH

For International News Service.

NEW YORK, Oct. 2.—Defensively, the writer esteems the Washington Senators over the Giants, taken as a unit, giving the Giants only a slight edge in pitching—something to which they may or may not be entitled. The Senators had an impressive staff in midseason, but it seems to be that the keen edge of its efficiency has been dulled by the wear and tear of the late campaign.

The Giants, on the contrary, got better pitching late in the race than they did at any time before. Bentley, Neff, McQuillan and Barnes stepping out with natty performances. In the last week of the campaign it looked as though this quartette was ready to pitch championship ball any time the question was asked of it. Washington won several of its late games by scores that indicated that the opposition was having no trouble in trifling with the Senatorial staff. Johnson seemed to be tiring, after staking himself to a great year, and it needed the excellent relief pitching of Marberry to reclaim games that seemed to have been lost by Mogridge and Zachary. I think it is entirely possible that McGraw will get slightly more consistent pitching than Harris will.

Johnson, of course, will work (Turn to Page 9, Col. 5)

MAY WHEAT PRICE UP TO \$1.50

Board of Trade Quotations Jump, Grain Shortage Becoming Acute

CHICAGO, Oct. 2.—The forecasts of optimism were borne out here when May wheat was sent skyward by reports of an acute grain shortage, and touched the \$1.50 mark.

Predictions that wheat would go to this point came months ago at a time when agriculture was bitterly complaining of the discrepancy between the price which it received for its product and the cost it paid for manufactured goods.

GARBUTT ARRAIGNED

LOS ANGELES, Oct. 2.—Charged with the murder of Mrs. Dorothy Lee Hunn, wife of a Chicago ink manufacturer, Harry Garbutt, former Illinois prison inmate, entered a plea of not guilty when arraigned here today. Trial was set for November 5.

COLLAPSES AT CHARGE OF BRIBERY BUT DENIES HE IS GUILTY OF ANY WRONG

Jimmy O'Connell Also Declares He Has Been 'Fool' and 'They' Made Him 'the Goat' In Revelation of Baseball Scandal

PITTSBURGH, Oct. 2.—"O'Connell and Dolan are only the goats," Barney Dreyfuss, owner of the Pittsburgh Pirates, said today in commenting on the baseball scandal which has led to the expulsion of Cozy Dolan and Jimmy O'Connell from organized baseball.

"The investigation into the bribe of Heinie Sand should go further," said Dreyfuss. "It's an insult to the intelligence of the baseball public to ask it to believe that only two members of the Giants would pay \$500 of their own money to gain something which would benefit many others."

NEW YORK, Oct. 2.—The steely nerves of Cozy Dolan, one of the most picturesque characters in baseball and once one of its greatest third basemen, which never failed him in the tightest pinches of games that made diamond history, snapped today as a result of his suspension with Jimmy O'Connell in the New York Giants bribery scandal. Dolan, collapsing from the shock, was confined to his bed, from where he freely sent out a denial of any guilt.

In another bed at his home was his wife, who will not believe anything except he is innocent. She, too, had collapsed and spent the night in crying. Dolan raised himself from his sick bed on his powerful throwing arm and echoed the cry of Jimmy O'Connell: "They made me the goat."

"My replies to Commissioner Landis have been misconstrued," he said, brokenly. "He asked me if I had talked to O'Connell before the game and I answered 'I don't remember.' It's a mannerism of mine. I never say 'Yes' or 'No' in a conversation. I am not covering up anyone. I don't know what it's all about. You know it—anybody that follows baseball knows it—I've always had an honorable career."

Wife Believes In Him

Fandom will bear out that last sentence of Cozy Dolan's. Dolan, by virtue of a career that made him much envied, was one of the colorful individuals to whom baseball pointed proudly ever since his huge frame appeared on major league baseball diamonds. It was a Dolan different than him who lay weakly in bed today, his graying hair grayer than usual.

"My wife still believes in me," he continued, brightening. "She told me I should have tried to explain that 'I don't remember' to the commissioner. I did try. I found out then he already had gone to Washington."

"It's too late now," Mrs. Dolan, nearby, confirmed what Dolan said. She thinks he is being made a fool of.

What Cozy said she subscribed to in its entirety, save his surrendering "It's too late."

'Asinine Thing to Do,' Says McGraw of Bribe Plot

NEW YORK, Oct. 2.—What John J. McGraw, manager of the New York Giant baseball club, had to say today about the suspension of Cozy Dolan, his coach, and Jimmy O'Connell, star outfielder, was seasoned with sharp words and expressions of deep disgust.

"This is a fine way to enter the world's series," McGraw said to an International News Service reporter when he entered the Polo grounds for practice.

"I can't understand how anyone would act so blamed foolish when it was a 100 to 1 shot we'd win the pennant anyway. It was an asinine thing to do."

No One Else Implicated, Is Declaration From Sand

HAZELTON, Pa., Oct. 2.—Heinie Sand, Philly shortstop, today gave his version of what happened at the Polo grounds at New York last Saturday when the alleged attempt was made by Jimmy O'Connell, Giant outfielder, to get him to throw the game to the Giants for \$500.

Still reluctant to talk because of orders from Judge Landis, Sand opened up sufficiently to say no one else was implicated when the offer was made to him by O'Connell.

"There were no details given," said Sand, "as to when or where or how the money was to be paid and no one else was implicated when the offer was made to me."

Deny Brooklyn Will Be Substituted for New York

WASHINGTON, Oct. 2.—A rumor to the effect that the Brooklyn Dodgers would be substituted for the New York Giants as national league representatives in the world series because of the O'Connell-Dolan scandal, was laughed out of countenance by Judge Landis today. Judge Landis was entering the Washington ball park for a chat with Clark Griffith, president of the

Senators, when the report was broached to him. He threw back his head and laughed uproariously, but designed no reply as he disappeared from view.

Must Have Been Money

Mad, Says Giants' President

NEW YORK, Oct. 2.—President Charles A. Stoneham, president of the New York Giants, when asked for a statement today dealing with the Dolan-O'Connell baseball scandal, said: "It came as a shock to me. I can't see how ballplayers could be so foolish. Dolan and O'Connell must have been money mad. I always thought O'Connell the most innocent and honest youngster I ever met. I pity him for being led into this terrible situation. I sympathize also with his parents when they read of his downfall."

Scandal Closed Incident, Avers National President

WASHINGTON, Oct. 2.—John A. Heydler, president of the National league, in a formal statement this afternoon declared he considered the O'Connell-Dolan scandal as a closed incident.

"As far as I am concerned, I think the entire investigation is closed," said Heydler.

O'Connell Declares 'They' Are Making Him 'The Goat'

By DAVID SENTNER

For International News Service.

Copyright, 1924

NEW YORK, Oct. 2.—"They're making a goat out of me. I've been a damned fool."

That's what Jimmy O'Connell, suspended New York Giant outfielder, said today of his teammates and himself in admitting that he offered Heinie Sand of the Phillies \$500 to throw Saturday's game and in claiming that the whole Giant team was in on the deal. He made his defense and accusations when interviewed in the club house on the Polo grounds this morning.

O'Connell, pathetically waiting for official word at the park that he was out of baseball, made no effort to belittle the part he played in the bribe attempt. He was waiting for Cozy Dolan, suspended along with him, to appear at the Polo grounds "to have it out" with Dolan.

Blames Teammates

The suspended player was bitter toward all his teammates.

"They picked me," he said, "because I knew Sand well. We met out in the Coast league when I played with him since we both were in the bushes. Dolan put the proposition to me. That was Saturday morning. He said the whole team would chip in to make up the \$500."

"Frankie Frisch, Pep Young and George Kelly all knew about it. When I told Pep what Dolan had said, Young said: 'Go to it.' Then I told Frisch and Frank said: 'Give him anything he wants,' meaning Sand."

"I asked Kelly what he thought about it, too. George knew all about it. I could tell that he had been approached by Cozy from the way he talked."

Tells Alleged Offer

Then O'Connell told about how he had approached Sand, once he was certain that he had the support of the team.

"It was just before Saturday's game," he said. "During batting practice I talked to Heinie on the third base line."

"How do you feel about the game?" I asked Sand. "We don't

FROM EAGLE ROCK

EAGLE ROCK, Oct. 2.—Judge
Harold I. Cruzan of Monteflora
avenue has agreed to present some
captivating "side shows" at the
Harvest Home festival of October
10 and 11, announces Mrs. J. C.
Reiter, acting secretary of the
local Chamber of Commerce and
president of the P-T-A. Under
the auspices of which latter body
this popular annual event is be-
ing staged.

Just what is the nature of the
entertainment Judge Cruzan pro-
poses to offer has not been re-
vealed, but those who know "his-
zener," of old, vouchsafe that a
guarantee of laughter goes with
the bill.

There will be a children's mat-
inee on Friday, and the same night
the children will have another
presentation of the program be-
tween 8 and 9 o'clock, it is an-
nounced, with the adult pro-
gram between 9 and 10. The
Boys' Glee club will make its first
appearance under the leadership
of Miss Snyder. Miss Maddox'
class and the kindergarten class
will appear in the programs.

The dahlia booth, in which the
school children will exhibit their
own flowers, and also sell them,
is in charge of Mrs. Frank Park-
er. Mrs. A. Dorr will arrange
and superintend the fancy work
booth, where Christmas novelties
may be found.

Donnell G. Montgomery, who
yesterday turned over his duties
as C. of C. secretary to Mrs. Rei-
ter, so as to have more time for
his position as deputy city clerk,
announces that hereafter his of-
fice at the local city hall will be
open from 8 until 12 o'clock
every morning.

The new dormitory at Ocul-
dent college is assuming form
very rapidly.

The Thursday Morning Music
club has resumed its weekly
schedule of activities.

Mr. and Mrs. Edward M. Lang
of 5148 Sheeran avenue, have with
them Mr. Lang's father of River-
side.

E. L. Maxson, wife and son have
returned from an extended trip
to the Atlantic states and are
now settled once more in their
home at 1824 Chickasaw street.

**Rules of Registering
Are Told by Deputy**

Editor The Evening News—No
polling officer has the right to
challenge a receipt of registration,
if on the face of it it is positively
evident that the affiant has com-
plied with the laws of registration.
That is, first registered since
January 1, 1924, and second, if he
has moved since so registering he
has gotten a transfer with his new
precinct thirty days before the
election.

On Tuesday many people, who
carried perfectly good receipts of
registration were deprived of their
right to vote. They were justly
angered about it, and unless this
is understood the wrong will be re-
peated November 4.

Another thing, a voter is break-
ing law if he votes in a precinct
in which he does not live. This
was done in the election Tuesday.
It may be done in November, too.
Much of such doing in fact, but a
little of such doing could queer
a closely contested election as it
opens the way for fraud.

MRS. M. E. DELL,
Deputy Registrar of Voters.

**ROMANCE OF RED WHEEL
IS RELATED BY INVENTOR**

**B. E. Meacham, Who Is Responsible for Lorain
Oven Heat Regulator, Tells Story About
How Burning Bread Brought Results**

By B. E. MEACHAM
Superintendent of National Stove Company Division
EDITOR'S NOTE—The story of the invention of the Lorain Oven Heat
Regulator by B. E. Meacham of American Stove Co., parallels that of
James Watt's invention of the steam engine. James Watt, born January
19, 1736, at Glasgow, Scotland, did not, however, possess a reputation for
youthful curiosity equal to Meacham's. Watt's idea was born of idle,
boyish curiosity while Mr. Meacham's was due to years of association
with his mother in the kitchen of a household. Andrew Carnegie
wrote his biography of James Watt, "because," Carnegie said, "he made
it possible for me to make my millions." In his biography Carnegie
mentions that Watt's aunt once said to him, "James, I never saw such
an idle boy. Read a book, or employ yourself usefully." The criticism
was brought out by an hour of Watt's speechless concentration on a
boiling teakettle. Little did his aunt think that in his early twenties
Watt would give the world the first real impetus to what we now term
the mechanical era, the greatest the world has ever known, from the
standpoint of civilization, learning, progress, wealth, happiness and com-
fort.

As I look over the years of my life, and then attempt to
visualize the future of the Lorain Oven Heat Regulator, I
wonder just what would happen if all mothers, fathers, friends,
and employers realized the great responsibility that rests upon
anyone who in one way or another commands the acts,
thoughts and time of other human beings.

Personally, I have never been
able to make myself believe that
any great amount of credit is due
me for the invention of the Lorain
Oven Heat Regulator. In fact, I
am positive that I am entitled only
to a small share of the credit, the
greater part being due my mother,
and the circumstances that sur-
rounded my boyhood days; to Dr.
Andrew Ure, the inventor of the
thermostat; and to my employers
who so kindly gave me the oppor-
tunity necessary to develop and
perfect my idea.

Born On Farm
I was born and brought up on
a farm near Norwalk, Ohio, being
the eldest child of a family of
seven. There may be a number of
men who will read this article who also
were the eldest of large families
in ordinary circumstances. Such
readers need not be told that I
was the "hired girl" without pay,
except for the great kindness and
consideration of a loving mother
and father.

Although my mother, like most
women of her lived on
farms, assisted with the farm
work, and although she kept our
home scrupulously clean, I believe
the labor which took most of her
time, and which seemed always to
worry and wear her down was the
cooking of three meals a day for
that hungry family of seven.

And so I forgive and even praise
my mother for teaching her oldest
son at an early age how to cook
and bake many simple, easily pre-
pared dishes. And, frankly, I
cannot say that I disliked the task.
I believe that all men have much
of the gambling spirit in them
and cooking in those days was
about 90 per cent gambling.

Worried Over Bread
But mother never seemed to en-
joy the gambling part of baking
and getting meals. Knowing full
well the limit of the family pocket-
book she got anything but a thrill
from taking a chance with several
loaves of bread or a cake in the
oven of that old coal range that
did so many, strange things and
always unexpectedly.

It bothered me the way mother
would worry after she placed
something in the oven. She'd fuss
with the fire, turn dampers, peek
into the oven, and actually be
afraid to leave the kitchen for
more than a moment or two.

I remember particularly a time
when we were having a Six-
teen big-belted and broad-chested
men working in the hot sun with
sweat trickling down their red
faces were creating an appetite
that would haunt the animal
feeders of a three-ring circus.

Her Bread Burned
Yet mother, working in the
kitchen with little assistance, was,
in proportion to her strength, giv-
ing more of her energy than those
sixteen men. Mother was baking
bread for those husky workers in
addition to cooking the dinner—
and the bread burned!

I'll never forget the look of
real mental anguish and physical
exhaustion that came over her
face as she gazed at the ruined
loaves, and right then and there
I made a promise to myself that
some day I would invent "some-
thing" that would prevent moth-
er's baking from burning.

In the course of time I became
an employee of the National
Stove Co. division at Lorain, Ohio,
and as the years rolled by I gained
promotion after promotion until
finally was entrusted with the
responsible position of superin-
tendent of the factory.

At that time, 1913, the com-
pany was manufacturing auto-
matic hot water heaters as well
as gas ranges, and I had been ex-
perimenting with various types of
thermostats in order to get a
basic idea from which I could de-
velop one that would be superior
to all others.

While sitting and pondering
one day with a hot water ther-
mostat in my hands I found my
vision concentrated upon a new
model of a gas range. Instantly
almost, and for no reason that I
have ever been able to figure out,
I recalled my promise to do some-
thing to keep mother's bread from
burning—and immediately some-
thing within me told me that I
had the answer in my hand.

Sitting there and thinking, I
soon realized that there were
many things to do before a ther-
mostat could be made a commer-
cial proposition as an attachment
to a gas range.

Must Be Cheap
Thermostats made for hot
water heaters require only a nar-
row range of temperatures. If a
thermostat were to be made for
regulating cooking temperatures
it would be necessary to have a
wide range of different heats.
There was also the problem of
application to the gas range and
that wasn't so simple as it sounds.

Then again, the device must be
made as inexpensive as possible
and yet give the greatest possible

**Steering Wheel Taken
While Car Is Parked**

When R. P. Jodon of 133 South
Kenwood street went to start his
car last night, after it had been
parked for an hour or so near his
home, he found it minus no less
vital a member than the steering
wheel. After this, he declares,
he is going to have a separate
lock for every moving part, in-
cluding the hands on the clock.

**Four Tires Are Taken
In Daylight Robbery**

Four Mexicans in a shabby light
touring car drove up to the Jelli-
son Motor Co. at 1004 South
Brand boulevard, yesterday after-
noon, stole four new 30x3 1/2 tires
and made off with them. The
police department was notified
and two motor officers attempted
without success to pick up their
trail.

**Members of Cat Club
To Plan for Exhibits**

Further plans for the annual
show in December are to be made
Monday night at the meeting of
the Glendale Cat club in the Hahn
auditorium at 109-A North Brand
boulevard. The meeting will be-
gin at 8 o'clock, announces Mrs.
B. O. Holbrook, member of the
club.

GARLAND GAS RANGE DEMONSTRATION FRIDAY

HOUSEWIVES LEARNING SECRETS

Art of Making Better Homes
And Foods Is Taught at
News' Cooking School

Glendale homes are destined to be better places in which to live, and food served in these homes is destined to taste better following the week's course being given in the Hahn auditorium by Mrs. Florence Austin Chase, featured at The Glendale Evening News' Better Homes, Better Foods school.

An even larger crowd greeted Mrs. Chase yesterday afternoon, when the school interest was intensified by a wonderful meat cutting display given by J. Hartman of the Hartman market, 133 South Central avenue.

Explains Cuts
Mr. Hartman spared no trouble in arranging his part of the session. He had one of the big blocks moved from his market to

Register at News
Office From 4 to
9 o'clock Daily

In order that those who have not registered for the general election in November may do so at once, The Glendale Evening News has arranged to have Mrs. Grace E. Holman at the office of this newspaper, 139 South Brand, between the hours of 4 p. m. and 9 p. m. Registration closes at midnight, Saturday, October 4. If you have not already done so, register immediately.

Elect Norman Girard Head of Organization

Norman Girard, son of Dr. P. A. Girard of 216 South Kenwood street, will head the Wilson Intermediate Boys' Athletic association during the coming term. He has made a fine record during his years at Wilson, being one of the school's leading athletes as well as a class A student. He is a member of the A-S-H class. Other officers elected in Wednesday's balloting are: David Stuart, vice president; Wendell Sherman, secretary; and Kenneth McCombs, boys' yell leader.

PROPOSITION GIVES HINTS NO. 10 FAILS TO CARRY

Canvass of Returns Shows
Garbage Disposal Plant
Loses in Election

Proposition No. 10 for a garbage disposal plant has failed to carry, joining the ranks of the other eight defeated propositions at the special bond election of September 30. It was revealed this morning by a canvass of the returns by Councilmen Asa Hall and S. S. Gihuly.

The count on this proposition

ON SYSTEM IN HOME

Mrs. Florence Austin Chase
Offers Suggestions at
Cooking School

Systematizing the home is one of the biggest problems of the housewife, according to Mrs. Florence Austin Chase, home expert, who is conducting a school at Hahn's auditorium under the auspices of The Glendale Evening News. As a fitting climax to the week's course Mrs. Chase will take up the efficient management of the home at the final session tomorrow.

Mrs. Chase is to explain the proper care of and systematizing of the home. The systematizing of the home is one of the most important problems confronting present-day women, for never have living conditions been so complex and never have women had so many other things, be-

Here's Friday's Program At Domestic Science School

Following is the program to be presented tomorrow by Mrs. Florence Austin Chase at The Glendale Evening News' Better Homes, Better Foods school in Hahn's auditorium:

HOME BEAUTIFUL

Systematizing and caring for the home beautiful.

DOMESTIC SCIENCE

Scientific principles of cake making, illustrating cakes made with shortening and those made without shortening. Icings and fillings.

Tomorrow, the last day of The Glendale Evening News' Better Homes, Better Foods School now being conducted by Mrs. Chase at Hahn's Auditorium, could very well be called The Glendale Evening News' Party for the women of Glendale. A splendid program has been prepared and refreshments will be served. Remember Friday's class will begin promptly at 2 p. m. sharp. Come early.

Comment

By GIL A. COWAN

A merry row in Iowa politics! Senator Smith Brookhart, militant banker, has demanded the Republicans replace Charles G. Dawes, vice-presidential candidate, with a farm bloc representative.

Of course, his proposition is preposterous when Dawes should be the burden of the Coolidge campaign and did what was expected of him. Whether or not he has been diplomatic or logical in his speeches is an open question.

Those who have followed the campaign state Coolidge has commanded more and more respect by attending strictly to business, while Dawes has drawn the attack of opponents perhaps purposely.

In that case Dawes' efforts have not been in vain and Republican managers will smile at Senator Brookhart's spasm.

Interest displayed by Glendale women in The Evening News' cooking school conducted by Mrs. Florence Austin Chase is worthy of comment. It visibly demonstrates the pulling power of The Glendale Evening News' advertising columns.

Further, when women from Pasadena, Hollywood, Eagle Rock, Tujunga and Burbank are found in the large assemblage of housewives at Hahn's auditorium, it is clear evidence that The Glendale Evening News more than covers the local field.

An epidemic of burglaries, not only locally, but throughout Southern California, should make peace officers take extra precautions in viewing with suspicion any vagrants or questionable characters.

And when robbers are apprehended they should be dealt with severely in courts of justice. They are without the law in their career of crime. There is no mistaking their intentions.

Murder in some instances may be excusable, although very rarely. But robbery and banditry are clearly the work of outlaws.

GIRLS AS MODELS

In London, fashionable West End shops are now employing pretty girls on motorcycles as rannegins to display the latest styles in motoring apparel.

Chief Lankford Thanks Workers on Fire Bonds

Editor The Evening News—I would appreciate the use of your columns to assure the people of the appreciation of the members of this department for the action in obtaining the additions to their firefighting organization.

The additions provided in Proposition No. 1 were barely sufficient for the needs of the city at the time the issue was contemplated. Since that time there has been added to the city more than a square mile of residence and business property that is without fire protection and that cannot be properly protected even with the additions just voted.

It is to be regretted that Proposition No. 2 (the alarm system), was not given a sufficient vote. Had this matter been given the serious consideration it deserved, I feel that the people would have realized the grave situation confronting this department, particularly with regard to the schools, and would have carried these bonds.

I wish to congratulate the individuals of this department who have ported the measures with the sole object of accomplishing something of benefit to all the people, and assure them of our appreciation of their work.

As in the past, this department will endeavor to merit the confidence of the people and maintain as high efficiency as it is possible for us to reach.

Yours very truly,
A. H. LANKFORD,
Chief Engineer.

Student Body Council Holds First Meeting

The Glendale Intermediate Student Body Council held its first meeting of the school year on Wednesday for the purpose of planning an election and membership drive. Alessandro Madrid, re-elected president, Virgil Davis, retiring secretary, and Virgil Davis, called the roll and read the minutes. The membership drive will open today and close next Monday noon. Petitions for student body officers will be out this week, the election to take place Wednesday of the coming week. Election of council members will take place Thursday of the coming week. New officers will take charge of the council meeting that is called for Friday, October 10.

Council members present included Bobby Hollingsworth, Virginia Sloan, Dorothy Erskine, Peyton Baer, Josephine Mosely, Helen Rosenberg, Frank Howe, Frank Strickland, Corabel Boyle, Dorothy Leash and Adelaide Gillan. Members of the advisory board present were Miss Caroline Ainsworth and Miss Gladys Sharpe.

Christian Endeavor Rally Set for Friday

Christian Endeavorers of the Glendale Presbyterian church are to hold an intermediate rally Friday night at the church. All young people are invited to attend.

COLORS AT NIGHT

White can be seen the greatest distance on a dark night, but red can be seen the greatest distance on a bright night.

Registration of School Children Starts October 6

Annual registration of school children, persons between the ages of 3 and 18, is set for the week beginning October 6, school authorities are informed.

This registration is the direct responsibility of parents or guardians of children, their duty being to report to the public school nearest their home, or which their children attend.

Under the compulsory school law of California all children who have passed their third birthday, but who have not yet reached their eighteenth birthday, must be registered.

COOKING SCHOOL TO HEAR STOVE'S POINTS OF MERIT

Mrs. Florence Austin Chase, Noted Expert
On Better Homes and Better Foods, To
Feature J. A. Newton Co. Product

On Friday, the last day of The Glendale Evening News' Better Homes, Better Foods school, now being conducted by Mrs. Florence Austin Chase in Hahn's auditorium, will be featured the Garland Cabinet gas range, for which the J. A. Newton Electric Co. is San Fernando valley distributor.

Mrs. Chase will use this range in her cooking demonstrations at that time, and its various advantages and points of merit will be pointed out, so that its right as a component part of the American kitchen can be readily appreciated.

This stove, manufactured by the Michigan Stove Co. of Detroit, Mich., is, according to W. S. Hunter, manager of the stove department for the J. A. Newton Electric Co., the personification of the company's motto, "The World's Best."

Mrs. Chase Picks Stove
Mrs. Chase will at that time use a four-burner and simmerer No. 10-9 Garland, an all white porcelain enamel range, equipped with the famous "Well-Colator" oven heat control. Featured on the dial of this control is a baking temperature schedule for all baking requirements, so that the necessity for following a printed chart is eliminated.

The broiler is built beneath the oven and both oven and broiler are constructed of "Wellsville" rust-resisting steel; in fact, it can be said that this range is constructed of the same material throughout with the exception of the shelf over the burners, which is of cast iron.

Economical, Powerful
The heat spreading burners of the Garland are economical and powerful. Through their use the flame is thrown to every part of the bottom surface of a cooking utensil so that there is not a spot that is not uniformly heated.

The manufacturer states that this burner furnishes approximately 150 degrees more heat than the ordinary gas burner, and thereby the consumer realizes a saving of 10 per cent or more in his gas consumption.

When you visit the Garland exhibit at the Better Homes, Better Foods school, it has been suggested that you ask about the famous Garland policy of assurance, which is granted to all Garland owners.

Guests will find a number of different models in this stove at J. A. Newton Electric Co. booth, as well as numerous other household appliances. A representative of the company will be there and will be glad to take up with you in detail, the facts concerning any appliance in which one may be interested.

Man Caught In Store Held In County Jail

The man who gave the name of George Anderson, when caught at midnight Wednesday in the Gateway market, 1744 South San Fernando road, and who later said his real name is John Haas, is now being held at the Los Angeles county jail on \$1500 cash bail, to appear 10 o'clock Wednesday morning, October 15, before Judge Frank H. Lowe of the Glendale police court for his preliminary hearing on a felony charge lodged against him yesterday by C. A. Caswell, proprietor of the Gateway market.

TO BECOME PRO

LOS ANGELES, Oct. 2.—Fidel La Barba, world's champion amateur flyweight, announced here today he had given up his A. A. U. card and would enter the ranks of professional boxers. He is a Los Angeles high school student.

Republicans Hope to Organize Strong Body

Organization of Republican forces in districts adjacent to Glendale will be the principal matter to be discussed at the meeting of Republicans tonight at the Harvard Street High school, chaired by John Robert White, Jr., of this city. Congressman Walter F. Lineberger, of the Ninth Congressional district, will be the principal speaker, and other talks will be given by W. E. Evans and Mr. White.

Clubs throughout the Sixty-first district are being organized at the present time, in order to work for the election of Coolidge at the November election. The Republican league hopes to perfect a stronger organization than ever before in order to inform the people of the grave danger of changing the nation's administration at the present.

It's Always Christmas For The Used Car Buyer

"Everybody makes a donation to the used car buyer."
First—The original owner makes him a present of about half the price of the car. Then the dealer donates his normal profit on an automobile, for used cars are usually sold for exactly what they cost the dealer when they are traded in for new ones.

Then the necessary overhauling and refinishing is done and put into the deal at cost, or less in many cases.

So the man who believes in eliminating the middleman certainly triumphs when he buys a used car, for nobody makes a profit but the fellow who buys it to drive and to enjoy.

We guarantee our used Nash cars.

Southern California's need is now your opportunity

The eyes of the nation are centered upon Southern California—for no other part of the country has been advertised to the world so extensively, or has developed so phenomenally.

Los Angeles is the first city in population on the Pacific Coast; the fifth city in population in the United States; the tenth city in industry in the United States; leads the world in number of automobiles; is the richest county in total value of all Farm Crops in the United States and for the past three years has maintained third place (exceeded only by New York and Chicago) among all cities of the country in volume of building permits issued.

What This Means to You

You now have an unusual opportunity to participate in and profit by this tremendous growth, through an investment in the Gibraltar Finance Corporation, created for mortgage money and building loans.

Your money will be put right to work in first mortgages and trust deeds, secured by highly improved, well located properties appraised at approximately twice the amount of the loan.

It will be managed by conservative, capable men, who are equipped by long and successful business experience in the real estate and financial business to protect and safeguard your money.

Profits

The total profits of the Gibraltar Finance Corporation will be limited only by the volume of mortgage loans

the Company buys or sells.

You are assured of 8% on the Preferred Stock, with an opportunity for unlimited profits on the Common Stock.

Fill in and send us the coupon below and we will mail you a folder which frankly discusses the large profits to be made in the mortgage business, and how it is accomplished.

Do you know that--

—Los Angeles is the fifth city in population in the United States?

—Los Angeles is the tenth city in industry in the United States?

—tremendous development has caused a large demand for mortgage money?

—the Gibraltar Finance Corporation is giving you your opportunity to profit by this demand.

Daily Greeting To News Readers

A YEAR OF 365 DAYS—
Is too short to try to join all the lodges.
Is too long to put off making a will.
Is to be lived just one day at a time.
Won't have but one birthday in it.
Has fifty-two Sundays for worship.
Makes room for a lot of reading.
Is certain to be part sunshine.

ENCOURAGE GLENDALE BUSINESS

While Glendale has grown rapidly in population, business and industry have made a corresponding advancement. Our many industries give us advantages in the way of employment for many people, and yet they have none of the drawbacks of the eastern factory town, such as dirt and smoke and large sections of standardized dwellings for employees.

But, in the business buildings and the business establishments the greatest change and growth may be seen. In scores of cases, profits, increased by the growth in population, have been re-invested in the business, and this expansion has meant the development of a wonderful merchandising area.

Sometimes the people do not properly appreciate what the business men do for a town. So many look at the matter as a one-sided proposition, feeling that when they give their business to the local merchant the benefit is all his. But good stores are both a necessity and an asset in a growing city, and good stores can be built up by patronage alone.

A good many cases of expansion on the part of Glendale business establishments could be cited, and it could be shown that these men could have made as much money under the old conditions and in the old quarters, but the improvements they have made are of as much value to the city as to the firms in question.

Take almost any block of store buildings in Glendale and try to picture it, if you can, as it looked two, three or four years ago. If you can recall how it looked then, and see it as it is now, you will know that considerable appreciation is due the business men of Glendale for keeping up to, and even ahead of, the needs of the times.

Business activity and the physical aspects of business being of such importance to a city, it behooves the people of Glendale to keep their patronage for home business. It is essential that every effort made to draw business away from Glendale be discouraged. Glendale's best interests should be the precept of every Glendale man and woman.

DAYLIGHT SAVING

Daylight saving is an issue on the value of which people will never be agreed. Some think it works a hardship, while others feel that the extra hour of afternoon sun during the summer months is of great benefit and pleasure to them. When, during the war, daylight saving was in force all over the country, it did a great deal to keep up the morale of the army at home, who were working in shops and stores and offices, by giving them another hour of daylight. The farmers, however, complained of too much daylight, although the law did not compel them to work until dark.

Massachusetts has a daylight saving law now. Attempts have been made to establish this system in other states and cities, but, unless the movement is nation-wide or at least embraces a large section of territory, it results in confusion.

Massachusetts will vote on the daylight saving law November 4, and friends of the movement say that, if the vote is favorable, the entire industrial section of the east will establish a daylight saving zone. But, if the vote is unfavorable, the Massachusetts legislature will repeal the present law and that will end the matter in that section of the country.

PACIFIC COAST TRADE

The enormous growth of business through the Panama canal is one indication of the trend of the shipping business and the importance and growth of Pacific coast ports. Already the future overcrowding of the canal is being discussed and it is predicted that within the next fifteen years it will be necessary to widen the canal, make it a water-level route or dig another one through Nicaragua. It is inevitable that the near future will see enormous activity in international trade on the Pacific coast.

Robert Dollar, 80-year-old steamship owner, who is risking a fortune to establish the first "round the world" steamship line, makes some pertinent remarks along this line. Mr. Dollar says the wealth of nations is founded on international trade; that world trade is only in its infancy—the world is only knee deep in sea water is the way he expresses it; that our sea trade will grow as our land transportation has grown; that there is a great future on the sea for the United States; and that the big future of the shipping business lies on the Pacific coast.

VOLCANO POWER

Americans have been resourceful in developing power from waterfalls, but the town of Larderello, Italy, has gone one better. A score of factories in that town are being run by volcano power. Near the town is an area of several square miles where jets of steam and boiling springs have terrified the superstitious peasants for years. Now this surplus power is harnessed to an electric generator, new machinery added and a heavy head of electricity generated.

Along the same line is an offer to sell or rent a volcano in Bolivia. It is contended that the volcano will produce steam enough to develop electrical energy of 400,000,000 kilowatt hours in the course of a year.

Civilization advances as man puts aside his superstitious fear of the elements and the forces of nature and harnesses them, as did Franklin the lightning, for his own use. Will the time come when enterprising communities inviting industries to them will list a volcano among their assets?

MOTOR CAR A DEADLY WEAPON

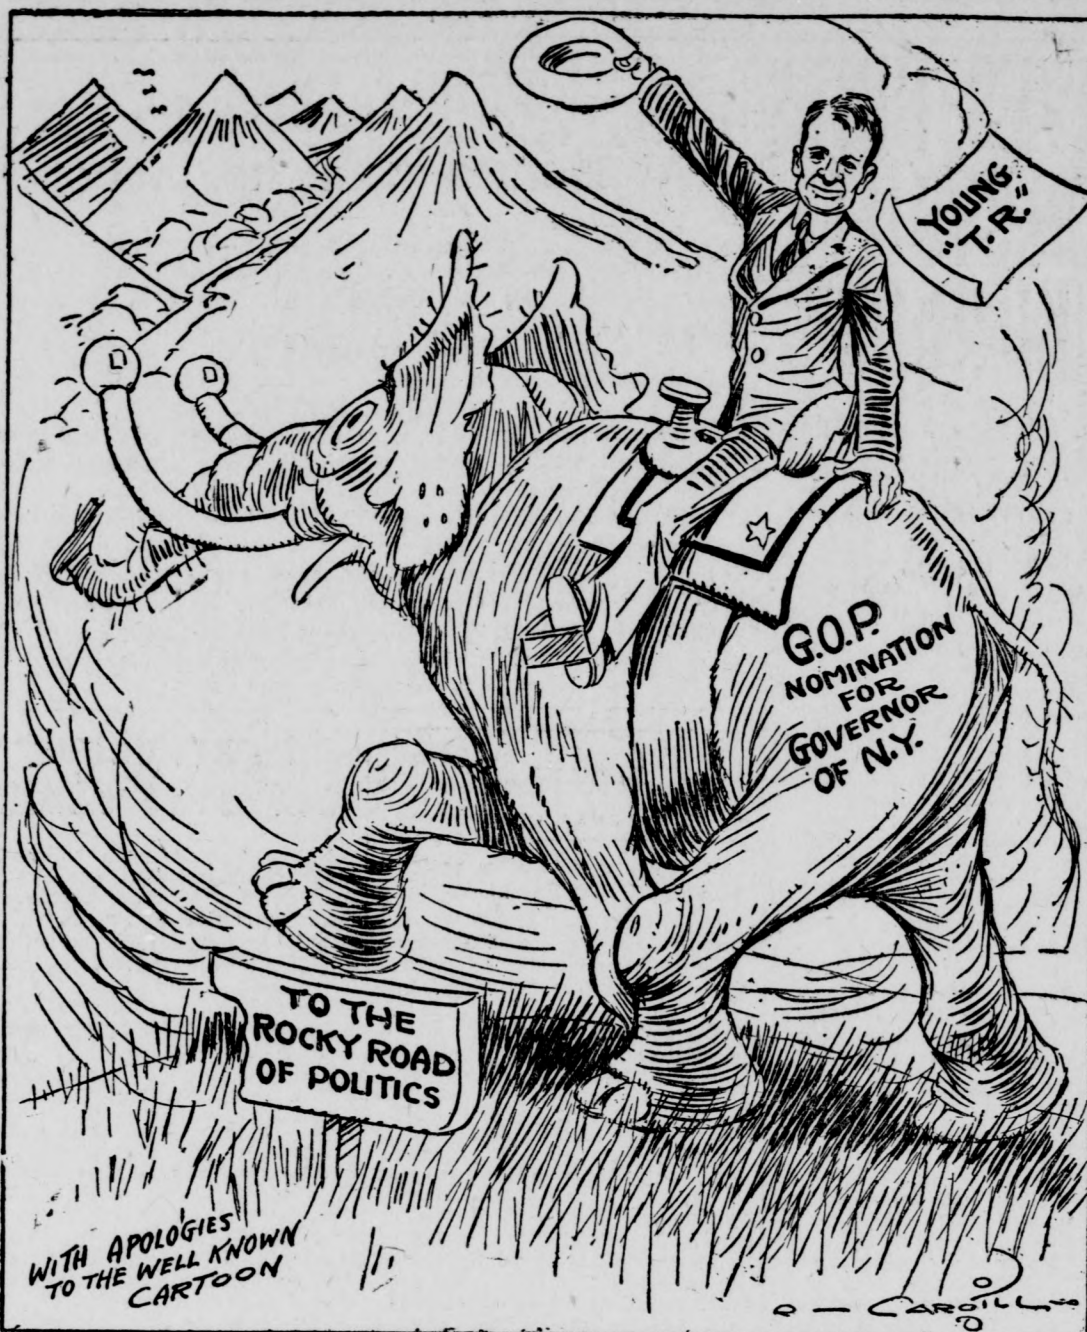

A Visalia man driving at a moderate rate of speed behind two groups of people who were walking at the side of the public highway, passed the first group, thought he recognized a friend among them and turned to look back. When he turned his eyes to the road in front again, he found his car had swerved to the side of the road and he was so close to the second group of pedestrians that it was impossible to stop his car until he had struck a man, inflicting injuries from which he died a short time later.

The driver was not a speeder, neither was he a careful driver. Until those who drive learn that a motor car is a deadly instrument in the hands of those who do not give their entire attention to its operation, such accidents will continue.

The number of automobiles is increasing by leaps and bounds, says a news item, but neglects to state that the leaps and bounds are being made by pedestrians.

Lots of people are doing all they can to put the die in diet.

THE LONG, LONG TRAIL

WITH APOLOGIES
TO THE WELL KNOWN
CARTOON

On Foot

By DR. FRANK CRANE

On foot, Ferdinand Ossendowski, the famous Polish explorer and the author of the book, "Beasts, Men and Gods," and other books of travel, is on a trip of exploration through darkest Africa.

Before leaving Paris, he said: "To see the country, the real country, and the real people, you must live among them. There is but one means of travel which I use—that is walking. To see the country you must see it on foot."

It is a question whether the development of means of transportation have brought people nearer to the heart of nature, or whether it has been so rapid that it has taken them past nature. People who see the country as it flies past them seated behind the car window do not see the real country. They become intimately acquainted only with the city from which they came and the city to which they go, while all the landscape between them is a confused panorama.

Those who go by automobile usually go so swiftly that they have no time to enjoy the views that nature presents before them. Even those who are managing a horse are kept so busy with their means of transportation as to exclude what

is going on around them.

Only those who take their foot in their hand are free. The proverb has it that a naked man goes far. The nearer one is unencumbered by baggage of any kind, the more free he is. He is brought into intimate contact with the world. There is nothing between him and nature to take away his attention and nothing but the weariness of his own flesh and the limitations of his own person to stand between him and the complete enjoyment of all that is around him.

He has time to allow nature to sink into his mood and it takes time to adapt one's self to his environment. This cannot be done in a hurry, and those whose only travel is by a method of rapid transit miss many secrets which nature has for the tramps and the vagabonds and wanderers who are her more favored children.

It is a question whether the airplane, as the express train and the automobile, is not merely transporting the city minded person through the country and whether one who knows the country only by this means can ever know it at all. At least, he can never know it as Ossendowski and others have known it.

Copyright, 1924, by McClure Newspaper Syndicate.

Horoscope

Astrologers read this as rather an unfavorable day. Although Mercury is in benefic aspect, Neptune, Venus and Mars are all adverse.

This should be an auspicious time for looking into one's financial affairs and making future plans.

The budget system for families and other methods of assuring thrift should be established at this time, for there may be need of wise administration of incomes before many years have passed.

Newspapers and magazines will prosper, but again it is prophesied that they will undergo many changes.

Agitation regarding naval and military affairs will continue to be prevalent and women will become concerned in it.

Venus is in a place warning women that they will be greatly involved in the problem of international peace.

While nations may enter into dissensions, the outlook appears to indicate more serious international warfare than has been recorded for many a year.

This is held to be an unlucky wedding day, since it seems to foreshadow much quarrelling and general lack of co-operation.

Sensational news may be frequently chronicled this month in which there will be accidents, storms and sudden deaths.

Great strides in material progress will be evident this month and if the stars are read right, there will be four years of prosperity.

Oculists declare that there will be scientific discoveries regarding the hidden world just beyond the perception of those who wear the garment of flesh.

Again spiritualists will claim attention, a sign that there is to be some condition that causes men to realize the uncertainty of life.

Saturn is in an aspect that is most threatening to Spain, Morocco, Queensland and the Transvaal. Persons whose birthdate it is should avoid law and quarrelling and should keep their domestic affairs well in hand.

Children born on this day may be quick-tempered and imaginative. These subjects of Libra are often exceedingly talented, but inclined to minimize the value of practical things.

Today's Poem

STANZAS FOR MUSIC
There be none of Beauty's daughters
With a magic like thee;
And like music on the waters
Is thy sweet voice to me:

When, as if its sound were causing
The charmed ocean's pausing,
The waves lie still and gleaming,
And the lulled winds seem dreaming.

And the midnight moon is weaving
Her bright chains o'er the deep,
Whose breast is gently heaving,
As an infant's asleep:

So the spirit hovers before thee,
To listen and adore thee;
With a full but soft emotion,
Like the swell of Summer's ocean.

—Lord Byron.

Smiles

IN ANY METROPOLIS
She—"Bob told me he's driven his car 110,000 miles this year."
He—"Probably trying to find a place to park."

WEALTHY SAY 'JAMES'
The new chauffeur was extremely reticent. In fact, his mistress thought him bashful.
"Won't you tell me your last name, John?"
"No'm; just call me John."
"Well, may I know what your last name is?"
"No'h; you'd better not."
"I insist upon calling you by your last name!"
"All right, then, call me Darling!"

PLAYING SAFE

Two horse thieves were about to be hanged by a vigilance committee. The rope was swung from a bridge over a deep, swift river.

But the first horse thief got off. The noose slipped and he fell into the water and swam downstream to safety.

When the committee came to deal with the second horse thief he said anxiously, as they knotted the rope around his neck:

"For Pete's sake, gents make sure of the noose this time. I can't swim."

Who's Who

Traveling more than 3,000 miles to give her father her moral support, Mrs. Julia Davis Adams, daughter of John W. Davis, Democratic nominee for the presidency, arrived in New York recently.

Mrs. Adams is a tall young woman, resembling her father in appearance and speech. She is the wife of William McMillan Adams, whom she met while her father was American ambassador at the Court of St. James.

They were married last year at Locust Valley. He is the American representative of the United States Rubber Company at Copenhagen and a survivor of the Lusitania disaster, in which his father died.

Mrs. Adams said she was happy over her father's nomination, word of which came as a great surprise after she returned from a theatre party in Copenhagen. She said she will take no personal part in the campaign, but wanted to be as near her father as possible while he is fighting to win.

Mrs. Adams was plainly attired. Her hair was not bobbed, and there was a noticeable absence of jewelry.

"I'm very much interested in politics. I know all about Ma Ferguson and I am in full sympathy with Woman Suffrage, but as to a woman being a candidate for office, it should depend entirely upon the woman herself," said Mrs. Adams.

A "carat" is the seed of the Abyssinian coral tree, uniform in size, and originally used in weighing precious stones.

Making Presidents

By H. Irving King

IN 1816

James Monroe had a walkover for the presidency in 1816—but not for the nomination. The Federal party, as a factor in national politics, was dead. The next president necessarily would be a Republican. The custom of outgoing presidents designating their successor was an accepted custom and the designation was the most valuable asset of the candidate; a dangerous custom had it taken deep root and grown in power. Madison designated Monroe, William H. Crawford of Georgia, secretary of war, was indignant. The chances are the reader never heard of William H. Crawford; but at that time no man was generally considered to have a better claim on the presidency. He was far more popular than Monroe. He had entered the senate in 1807 after a campaign in which he fought two duels, killing his man in one and being severely wounded himself in the other. During the war of 1812 he was the leader of the war party in the senate. As minister to France he had been the bosom friend of Lafayette and a social lion. Monroe being nominated by the congressional caucus, beating Crawford by only 11 votes, mass meetings were held in various sections of the country denouncing the caucus system.

However there was nothing for the Crawford men to do but swallow their medicine or bolt the ticket. They took their medicine and Monroe was elected by 183 electoral votes as against 34 cast for Rufus King. These votes for King were the last squirm of the Federal party and all came from states where there was no popular vote for president allowed and the legislatures were largely composed of disgruntled Republicans and Federalist holdovers. King had not been formally nominated but he was an old Federalist warhorse, the ancestor of that well-known King family of New York the members of which have been so long prominent in public life. Daniel D. Tompkins, who was elected vice president, served as governor of New York for ten consecutive years; in the war of 1812 he raised and equipped, partially on his own credit, 40,000 militia. Today people look at the New York harbor forts and wonder who Fort Tompkins was named after! Twenty-two votes were cast for John E. Howard, opposed to Tompkins. Nobody remembers Howard. Yet he was a soldier of the Revolution in many battles and had held many high civil offices. In 1814 he organized that defense of Baltimore which brought forth the anthem of "The Star Spangled Banner."

Walter Nicoles Gets Check on Birthday

Walter H. Nicoles, of 322 Fairview avenue, was given a most pleasant surprise yesterday when he received a birthday remembrance from the Crescent Paper Co. of Indianapolis, for whom he

worked as traveling salesman for eighteen years. Yesterday, October 1, was the occasion of Mr. Nicoles' seventy-fifth birthday and he was the recipient of a check for \$75 from the firm. Mr. Nicoles is president of the Glendale Horsemen's club.

High taxation and living costs compel British art collectors to sell to America.

A MYSTERY EXPLAINED

Veronica Water Baffles Science Yet Its Action Is Simple, Effective and Easily Understood

As far back as a century ago the famous Veronica Springs near Santa Barbara were the mecca of many white men in search of health. The benefits of these health-giving waters were learned from the Indians, who originally discovered the healing properties of these springs. This remarkable water has been analyzed by scientists and yet the most learned of these have been unable to duplicate this water, given as a boon to suffering mankind by a bountiful nature.

Yet the action of Veronica Water on the human system is a simple one, easily explained in spite of the many legends woven around this "magic" water by the early Indians and white settlers. Veronica Water has certain elements which stimulate to healthy action the liver, kidneys and bladder and assist nature to throw off the waste product of the body. This it does harmlessly without creating any habit or causing the unpleasant griping and weakening after effects which result from the use of so many drug laxatives.

It cleanses the colon, the intestinal tract and at the same time soothes and heals the inflamed mucous lining, allowing nature to take up the healing process, so that permanent relief is afforded in so many cases of constipation, indigestion, gall stones, liver, kidney and bladder troubles, rheumatism, high blood pressure, acid conditions and other ailments arising from an obstructed colon. Veronica Water treatment has a tonic effect. Increased appetite and a general feeling of buoyant health follows its use. Veronica is bottled

AUTOMOBILE SECTION

GLENDALE, LOS ANGELES COUNTY, CALIFORNIA, THURSDAY, OCT. 2, 1924

OLDSMOBILE PROVES PULLING POWER IN HILL TEST

Highway Patrol Aid To Stranded Airship

When the fleet of highway patrol service trucks was inaugurated by the Automobile Club of Southern California to daily cover 2,000 miles of main roads, it was not expected that the drivers would be called upon to rescue aeroplanes. This is what happened, however, a few days ago near Capistrano on the coast highway between Los Angeles and San Diego, where an aeroplane had been forced to land.

The driver of patrol car No. 62 saw the plane make the forced landing, and having been a former member of the British air service, he realized that something was wrong.

Use of Rich Mixture In Cars Means Carbon

A "rich" gasoline mixture is one with too great a proportion of gasoline to the amount of air, whereas, a lean mixture is possessed of less fuel than it should have for proper combustion. An overrich mixture will cause overheating of the engine, to say nothing of carbon accumulation and such other ills as preignition, loss of power, lack of accelerative ability and loading up at slow speeds. At high speed a lean mixture will cause misfiring and uneven running of the engine. In connection with this improper operation there will be the familiar popping in the carburetor.

AUTO SALES STEADILY GAINING

Manufacturers Not Expecting
To Make as Much Money
As Previous Year

By J. C. ROYLE
Special Correspondent of the Glendale Evening News. Copyright, 1924

DETROIT, Oct. 2.—The automobile business is picking up. Satisfactory evidence of that is visible in many quarters of this great manufacturing section. It is equally apparent that automobile manufacturers are not going to make as much money as they did in the banner year of 1923.

In fact, even those companies which have shown a satisfactory profit in the early part of the year or for the nine months to date are not sure of holding on to those profits. There are enough cross-currents still running to swing even the stronger concerns toward danger. Another sharp slump in demand during the next three months might not only obliterate the profits of the last quarter of the year but wipe out many of the gains of the first three quarters.

Balanced Ratio
Each quantity manufacturer has a point of production where costs and profits exactly balance. If the number of cars made each day falls below that point there not only are no profits, but overhead must inevitably make terrific inroads on surplus. This point varies with every manufacturer with fluctuations of material markets and from day to day. During the last bad slump, however, experts figured out that the Ford company could make 2500 cars a day and break even, whereas they would be making a handsome profit at production of 5000. That may not represent the Ford ratio today, but the point in production where profit ceases and heavy loss begins exists for Ford as well as for other companies.

If, therefore, a slump should come in the next three months, attended by a heavy drop in production, much of the gain piled up by the quantity producers would be wiped away. Nevertheless there is a decided optimism apparent here with regard to fall and early winter business. Ford production last month reached about 153,000 cars, it is estimated.

The Buick works are running strongly, compensating to a considerable extent for the slump in the Ford production.

ENGINEERING FEAT SEEN ON ROADS

California Highways Present
Perplexing Problems
To Builders

By GIL A. COWAN
For Southland News Service.

LOS ANGELES, Oct. 2.—Motorists spinning over the highways of Southern California seldom stop to think of the engineering problems entailed in first constructing serviceable roads and then maintaining a smooth surface.

For seven months the widening and resurfacing of the Canejo grade of Ventura boulevard has caused traffic detours over the two alternative routes and with the completion of a short strip near Camarillo the "short cut" will be open to all travel again.

Replace Causeway
But another big task has just started on the coast route to San Francisco from the southland. Between Ventura and Santa Barbara the old wooden causeways around the cliffs have worn out under the strain of increased motor traffic for which they never were built. And now an eighteen month's campaign of filling in and building a sea wall over which a concrete pavement will be laid is proving a problem for the state and county highway commissioners.

The causeways, which the writer traversed last Sunday, cannot last long enough, it would seem, for the replacement to be made and the only alternative route is over the mountains with perilous grades on a narrow road. A speed limit of ten miles an hour is enforced over the causeways which are breaking to pieces faster than workmen can repair them.

Road In Desert
Another problem which E. Q. Sullivan, division engineer of the state highway commission, is wrestling with is equally as puzzling as the "wet job." He wants to find a road which will withstand the desert conditions on the ocean highway between Yuma, Ariz., and Holtville, California, in the Imperial valley, as the causeways are breaking to pieces faster than workmen can repair them.

(Turn to Page 20, Col. 8)

Help To Make Real Tonnage

Eight men constituted the cargo of this OLDSMOBILE when it sailed over the top of the 14 per cent Hill drive grade in northeast Glendale, in high gear. Passengers are: "TED" BARGER at the wheel, J. F. HUNTER, GLENN DOLBERG, F. D. SMITH, "BILL" McGREE, CLIFF LAWTON, H. T. RICH and R. LYND.

MAKES STEEP HIGHWAYS LOADED

Car Climbs Over Top In High
Gear With Seven Men
As Passengers

By H. THOMPSON RICH
Of The Evening News Staff.

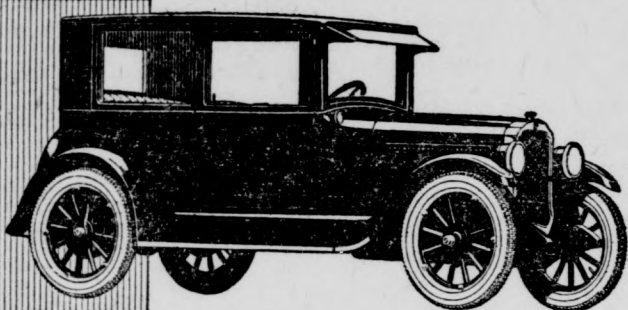

The 1925 model light six Oldsmobile is a bear-cat on the hills and to prove it C. H. Hunter of 208 West Broadway, local dealer, took a stock touring car to the top of the mile-long School street hill in high gear at 20 miles an hour, with seven passengers.

This is the grade that goes up to Alta Canada from the schoolhouse corner of Michigan boulevard, La Canada. It is the "jinx" of many a car, this hill, and Claude Hunter wasn't sure the sturdy little Model 30 would do it. But, like old Steve Brady, he took a chance—and up she went. In the car at the time, which was Tuesday morning, September 30, were Ted Barger, F. D. Smith, J. F. Hunter, Glenn Dolberg, H. T. Rich, R. Lynd and C. H. Hunter at the wheel. She not only went up, she "took it and liked it," as he said when he climbed down at the top and let Glenn Dolberg, the party's official photo man, shoot the bunch. A picture taken the same morning, on another steep grade, appears elsewhere in this issue of The Glendale Evening News.

Tries Trick Stuff
When Claude Hunter had done his stuff, Ted Barger took the car half way down the hill, turned around, came to a dead stop, started up on high—and reached the top at exactly 23 miles an hour.

By this time Claude thought it was his turn again, so he went down, turned two-thirds of the way up and purposely crawled to the top on high at 6 miles an hour, "to show she's got the works as well as the speed." The party and the peppy little Olds had previously conquered Hill drive in northeast Glendale, a winding, tricky grade, as steep as any in this vicinity—Ted bringing a carload of eight people to the top on high. This is the hill leading into Sycamore

REMARKABLE TRIP MADE BY ESSEX

Utah Man Drives to Indiana
To See Mother in Just
Forty-eight Hours

A remarkable cross-country run in an Essex Six Coach has just come to the attention of Porter A. Kelley of the Kelley Motor Co., 816 South Brand boulevard, local Hudson-Essex dealers.

It was a trip that took the driver from Utah to Indiana in forty-eight hours, according to Mr. Kelley, who states that in some respects the run excels even that of the famous transcontinental dash in the Essex Four, some years ago, in that it was unplanned and was the achievement of a single driver.

Remarkable Trip

"A man in Ogden, Utah, wanted to see his mother in Perryville, Ind.," says Mr. Kelley, "and he accordingly set out in one of the new balloon-type standard Essex coaches, on one of the most unusual achievements of nerve and skill of which I have ever heard. In 48 hours 15 minutes of actual driving he covered 1702 miles of all kinds of roads, with no relief or assistance whatever. He was using an Essex Coach which had gone only 600 miles and had absolutely nothing whatever on it but the regular equipment. The time he made shows that his Essex averaged more than 35 miles an hour."

"His trip covered roads in Utah, Wyoming, Nebraska, Iowa, Illinois and Indiana. A lot of them were badly cut up and chuck-holed, cruelly hard on a car and driver going fast. Yet the only difficulty encountered was a tire puncture. The driver, L. L. Hains, has written a warm letter of congratulation to the Hudson-Essex distributing concern in the Inter-mountain territory. New Essex Is Better."

"We are receiving many compliments from Essex Six owners here in the city. The old Essex four was a famous performer, but the new Six has all the stamina and reliability of performance, plus greater smoothness and comfort, so they tell us. If the Essex Coach were only a six cylinder closed car at the price of an open one it would be

ALL-YEAR USE OF CAR IS POSSIBLE

Studebaker Duplex Phaeton
And Roadster Proving
Popular Models

Owing to the unusually mild climate Southern California enjoys the year around, the new Studebaker duplex phaeton and duplex roadster models are proving very popular here, according to Don H. Packer, manager of the Packer Motor Co., Inc., South Brand boulevard at Colorado street.

This popular duplex feature combines all the best qualities of open and closed cars, Mr. Packer points out, enabling the motorist to make the change from one to the other at will.

All rattles and squeaks are eliminated in the duplex tops, he states, through a special process by which they are electrically welded to the frame, making for a rigidity heretofore impossible in this type of a top.

"The duplex top in fair weather is just a better, neater looking top than the ordinary variety," says Mr. Packer, "but in stormy weather a motion of the hand transforms the car into a snug sedan."

Road From Redlands to Beaumont to Be Paved

REDLANDS, Oct. 2.—Motorists to the Imperial valley will be glad to learn that pavement of the state highway between Redlands and Beaumont will be the next improvement undertaken by the State Highway commission, it is announced by E. Q. Sullivan, division engineer, who states this is the last unpaved link of the Ocean-to-Ocean highway in California. A bridge over the wash in San Geronimo pass is planned.

a remarkable bargain. But the fact is, that it is also an automobile of unusual performing power. "That is why Hudson-Essex is the leading line of six cylinder cars. Sales in Wayne County, Michigan, the home of the industry, show that men and women who really know automobiles, are flocking to Hudson and Essex."

JEWETTS SET NEW EASTERN RECORDS

Two Paige-Built Cars Win
Hill-Climbing Contest
In New York

Before a crowd estimated at 25,000 persons, the largest that has attended a hill-climbing contest in two years in New York state, two Jewetts won first and second and set a new record on Virgil Hill, at the edge of Cortland, New York, Monday, Labor Day, afternoon, according to advices received here by F. S. Paden, manager of the Ralph B. Bliss, Paige and Jewett distributors.

Edward A. Bachle, driving the Jewett Special which set a new record four seconds faster than the previous one, drove up the mile and two-tenths grade in one minute, eleven and one-half seconds. George Reynolds, who won second place in another Jewett Special, climbed the steep grade in one minute and thirteen seconds.

The next best time on the hill was made by a racing car that carried the moniker of a "Flivver," but nevertheless was able to beat eight cylinder and other six cylinder powered cars up the hill by several seconds. The time for this car was one minute nineteen and one quarter seconds.

This is the fifth successive hill-climb won during the year in New York state by Jewetts, Mr. Paden states. At each the Jewetts also have the distinction of setting new records. The time at Cortland was four seconds faster than last year's record, made by a popular eight-cylinder special built for hill climbing.

Repair Broken Spring Leaves Without Delay

A broken spring leaf should be repaired or replaced at once by a skilled spring maker, not by any chance a blacksmith. If the intermediate plates should break at the center bolt, the spring clips should be tightened down until it is possible to have the break repaired. Very often rebound clips are loose or broken. Missing rebound clips may result in broken main plates.

The Good Maxwell— The Good Friend of Its Owners

Tens of thousands of American families look upon their good Maxwell cars with a feeling akin to positive gratitude.

For the good Maxwell has enabled them to regard the motor car as something more than merely a means of transportation.

If you examine into the basic reasons for such performance, and for

Maxwell's economical, care-free service, you discover that both the new transmission and new rear axle are strong and rugged enough for a truck; that the simple device of a platform spring under the front end of the motor, combined with the

balancing of reciprocating parts to the fraction of an ounce, practically eliminates any sense of vibration; that in proportion to weight, it is actually stronger than cars costing two, three or even four times as much.

The good Maxwell is thus fulfilling, with almost startling success, the mission its makers

proclaimed four years ago, when they announced that—"The new and powerful organization now manufacturing the good Maxwell is able to give and proposes to give, motor car values so unmistakable that they cannot remain for a moment in question."

NASH

Nash Leads the World in Motor Car Value

A National Tribute to Nash

7,800 Cars Oversold Despite Record-breaking Output

Drama in the motor car industry is unfolding before your eyes.

The group of new Nash models has touched spark to the torch of a nation's enthusiasm.

At a time when the industry as a whole is well below the peak of business—

—at a season of the year ordinarily not the best sales period

—and though Nash production is at the highest level ever attained

—still the demand from every section of the country for these new Advanced Six and Special Six models has swept sales to a point so far beyond the best previous mark that unfilled orders total 7,800 cars.

Nothing that we might say or do could add the weight of a straw to this undeniable and irrefutable evidence that men and women everywhere do see clearly

in these new cars an excellence, a distinction, and a value that beggar precedent and own no parallel.

If this were not so would anyone prefer to wait for a Nash?

Yet in every community leading citizens are doing just that.

Happily, with increased output unreasonable delay is eliminated for those who act with promptitude in placing orders.

And deliveries will be made on the rotation basis which is fair to all.

In honor of the record-breaking success of the new Nash models the week of October 5th to 12th is national Nash Oversold Week and we are staging a special exhibition composed of cars available to us for this purpose because of the fine courtesy of recent purchasers.

Your attendance is very cordially urged.

Right before your eyes Buick mechanics will build a Buick. And when the car is finished it will be driven down the platform runway under its own power.

But there is something even more interesting and significant in this performance than just the building of the car itself. This car will be built exclusively from the stock of the local Buick organization.

Nor is this all. The same truck and crew will visit every other city in the United States where there is a Buick branch or distributor and in each city will also build a Buick from units taken from their stocks.

All car owners will recognize instantly the great significance of this most unusual demonstration.

It demonstrates as nothing else can the complete standardization of Buick parts and service. For standardization alone makes this possible.

It demonstrates how complete are the stocks of parts carried by Buick branches and distributors everywhere—and the advantages of using Genuine Buick parts.

It demonstrates most dramatically that wherever a Buick owner may live or wherever he may drive, he is always assured the continuous use of his car.

PACKARD DRIVERS CAPTURE TROPHY

Gold Medal Removed From
Place Where It Rested
For Twelve Years

DETROIT, Oct. 2.—Carefully guarded, a large solid gold medal is being brought from the Pacific coast to the factory of the Packard Motor Car Co. here. It is in the custody of A. F. Bement, vice-president of the Lincoln Highway association, and E. S. Evans, one of the founders of the association. They will present it to Alvan Macauley, president of the Packard, upon their arrival in Detroit.

The medal was awarded by the Canadian Highway association as recognition of the fact that a Packard Six sport model car, driven by Bement and Evans, was the first automobile to cross Canada from Winnipeg to Victoria on an all-Canadian route. For twelve years the medal had been held up as a prize for daring motorists. Many attempts had been made to win it, but each previous effort had met with failure. It had come to be regarded as certain that no automobile could be forced through the roadless mountain fastnesses.

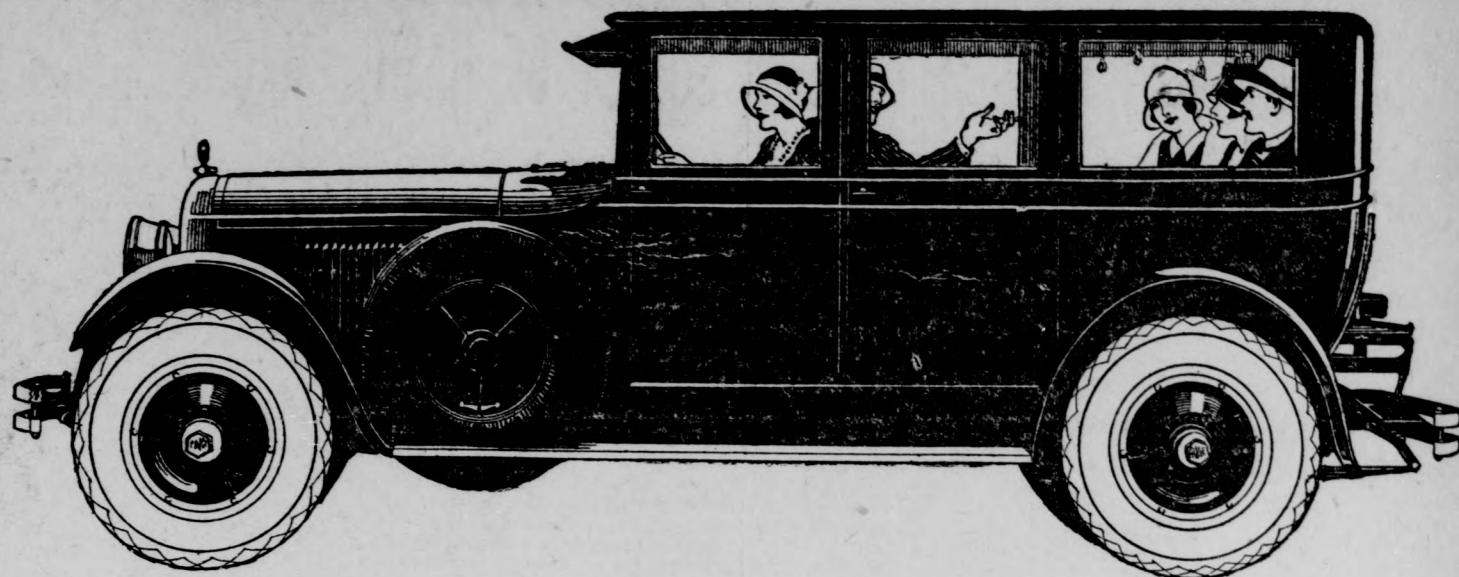

Death Keeps Pace

Death stalked beside the two motorists for many days as they fought their way westward through the Canadian Rockies. While traversing many parts of the route a single breakdown of the car or a blowout of a tire could have caused disaster, and either could have been expected, because the going was harder than any automobile ever was designed to withstand.

For sixty-three miles down the Fraser river canyon between Lytton and Hope, British Columbia, the car was driven over the ties of the Canadian National railway, through a box canyon 600 feet above the river, a raging torrent. It is this natural cut through the mountain made by the Fraser river which is followed by both the Canadian National and the Fraser river which is followed here, too, will have to go the through coast-to-coast Canadian national highway for which Bement and Evans and the association's official Packard were the pathfinders.

Going Is Slow

For the whole sixty-three miles the speed never exceeded four miles an hour, while frequently it took a half hour to go 1000 feet. Seventeen tunnels and 150 trestles had to be negotiated. Each individual tie of the railroad track had to be climbed as a separate obstacle. On some of the trestles every other tie had been removed during some construction work, making the going more difficult. With four passengers, two rail-

This \$2770 Paige Gives You \$4000-Car Advantages!

What are \$4000-car advantages? Size and comfort for one thing. You expect a big car for that money. Size—wheelbase—adds to riding comfort as well as appearance. You look for long springs and roomy, deep cushioned seats.

Big power is another thing you get in a \$4000 car. Ability to meet any performance

situation without straining. You expect it to last long. To stand up for years. And you count on relief from mechanical upkeep.

You are right to expect these advantages. But now you need not pay \$4000 for them! Read below how Paige—for \$2770—offers these selfsame advantages. Here are facts:

Size and Comfort

Paige makes fun of detours—casts driving limits aside! Why? It's long—131-inch wheelbase. Paige's rear springs are more than 5 feet long. Snubbers all 'round.

You cannot buy finer spring suspension! And for an inch or two more of wheelbase that a few others have you must pay \$178 to \$1090 more an inch! Several cars costing hundreds more than Paige are smaller!

Power and Performance

Paige's big 70 h. p. six-cylinder motor is more than ample for any job. Its size means unstrained power—hence long life. It means ability to climb hills in high that stall most others. Outstrip them on the straightaway. Throttle down to 2 miles an hour in high—then "get away" first. Finer performance is not to be had!

To equal Paige's 331.4 cu. in. piston displacement in so fine a car costs close to \$1000 more!

Long Life and Economy

You expect a \$4000 car to stand up season after season. You may confidently expect the \$2770 Paige to do the same! Paige's weight—4300 lbs.—indicates its staunchness. Running expense is remarkably low—far lower than most other big cars of the same advantages. Mechanical expense is long-postponed—thanks to fineness of materials and construction. The Paige is built for 100,000 miles of care-free service.

What other advantages can a \$4000 car offer you? Check up on what higher priced cars give. Then check up Paige. For only \$2770 you may now enjoy all the big power and fine performance, the size and com-

fort, the long life, of far higher-priced cars. Drive the Paige. Put it to your own tests. See how it measures up—excels most—in every point. Telephone or come in today for a demonstration.

Included at this price, equipment as follows: Five cord tires; trunk rack; double spring bar bumpers; snubbers; heater; nickel radiator and head lamps; motometer; automatic windshield wiper; rear view mirror; sun visor; smoking set; cigar lighter; clock; gasoline gauge on dash; stop light. Balloon tires and disc wheels optional at slight extra cost.

road men having been picked up as aids, and 600 pounds of baggage, the car carried more than a normal good roads load during two days of the most severe treatment to which an automobile could be subjected.

Heavy freight trains cannot be controlled as well on mountain railroads as they can on the flat tracks of eastern lines and the results are easily to be pictured had the breaking of a spring, blowing out of a tire or any other accident halted the car in a tunnel or on a trestle for an appreciable time. Several times safety points, where the car could be run off the tracks were reached only a short time ahead of trains.

Trip Completed
When they arrived at Vancouver the two intrepid motorists were feted for two days. The car was given a minute inspection, and it was found necessary to make no repairs other than tightening the body bolts and spring clips. The tires were cut and worn almost down to the last layer of cord, but they still held air. The car was shipped to San Francisco by boat, and Bement and Evans are now returning east over the Lincoln Highway.

The Packard is sold in Glendale by the Dixie Motor Co., W. H. Daniel, manager, 1129 South Brand boulevard.

Speed Cop In Machine Fools Traveling Man

SANTA ANA, Oct. 2.—G. E. Walsh, Los Angeles salesman, evidently has his own interpretation of the California speed laws. He wrote to Justice of the Peace Jack Landell as follows:

"I have a right to drive forty miles an hour on a straight road with no obstructions in sight."

And he seemed hurt by the officer's action in driving a car instead of riding the familiar motorcycle.

"I didn't know he was an officer," the letter stated.

And then he concluded by offering to mail in his fine.

Santa Ana Considers 45-Minute Parking Law

SANTA ANA, Oct. 2.—Santa Ana City Council is considering a 45-minute parking law for its downtown district. School stops also will be considered at the meeting scheduled for October 6.

OBTAINS PATENTS ON BATTERY AIDS

Glendale Company Notified
Of Basic Improvements
By Willard Co.

H. M. Coon, proprietor of the Cizek Auto Electric Co. at 200 South Brand Boulevard, has learned from an official of the Willard Storage Battery Co. that basic patents have just been obtained on two new features. One is the rechargeable Willard "B" battery, assembled in groups with flat plates, in glass jars. The other is the dry charge Willard battery with thread rubber insulation.

These basic patents enable the Willard Storage Battery Co. to eliminate the necessity of constant replacement of "B" batteries, according to Mr. Cizek, and make possible as high as twenty hours a day sustained use.

The new Willard batteries now being handled by Mr. Cizek will have an average life of five years, he states, and are certain to arouse a widespread interest among motorists, radio owners and other battery users.

NEW PAINT SHOP FOR CARS OPENED

Clyde Grant and H. B. Stone
Members of Firm Now
Located In Glendale

The latest member to join the ranks of Glendale's Auto Finish and repair shops, is the firm of Clyde Grant, an old time resident of Glendale, and his partner, H. B. Stone, of Los Angeles. These men are operating a refinishing shop for automobiles at 235 South Brand boulevard, rear, under the firm name of Glendale Lacquer Shop.

Only the "Zapon" process of refinishing will be used. According to Stone, this finish contains absolutely no oil, lead or zinc and will not check or fade. After it is once put on the body of the car it requires no polish of any kind. All that is necessary is just plain soap and water and a rub down with a soft rag, he says.

A special 30 per cent discount is offered by the firm for the first ten jobs turned out.

News Want Ads Bring Results.

FENDER WORK IS MADE SPECIALTY

Many Jams on Highways
Causes Motorists to
Dent Bodies

Changing body styles on machines with motors having many years' wear left in them is becoming more popular each year, according to G. A. Henry of the Carl Henry firm of auto body and fender repairers. Many cars become out of date but still have motors that will run for numerous miles and instead of trading the machine in for a new car, the owner may have the latest style body built over his chassis.

In the Carl-Henry shops at the present time is a Hudson touring car of a recent model, which is being made over into a speedster type. The body design is almost identical with the one being built by the factory itself and the job cannot be told from such.

In addition to rebuilding bodies this firm makes a specialty of repairing fenders and straightening up dents in the car. With so much traffic on the road at the present time, there are innumerable jams and collisions which require fixing by experts in order to make the car look decent.

CAR TO BE BUILT FROM STOCK ROOM

Mechanics to Assemble Auto
Before Eyes of Public
Tomorrow Noon

In order to show the motoring public how easy it is to secure Buick parts and how quickly they may be placed on the car, mechanics will completely assemble a Buick machine tomorrow noon at 1367 South Figueroa street, Los Angeles, and the car will then be driven away on its own power. This most novel demonstration is attracting a great deal of attention all over the country where such work is being shown, according to Tanner & Hall, Ltd., local distributors for the Buick, and a good-sized crowd is expected to witness the demonstration tomorrow.

Every part used in the building of the machine will be taken from the stock of the Figueroa street distributors and the same crew which builds the car there will go to other cities to show the quick manner in which Buicks

DEMANDS EXCEED SUPPLY OF NASH

Local Agency Will Observe
'Oversold Week'; Factory
Orders Are Heavy

The week of October 5 to 12 is to be "Oversold Week," announces Charles McDaniel, proprietor of the McDaniel Motor Co., 1234 South Brand boulevard, local Nash dealers.

"This will be a national observance of all Nash dealers in the country," Mr. McDaniel declares. "The inspiration having come from the report by factory officials to the effect that the company is 7800 cars oversold at the present time, though production is at the highest peak in the history of the Nash automobile."

"We are eight cars oversold right here in Glendale," says Mr. McDaniel. "While we are getting deliveries rapidly and no long waits are necessary in order to own one of these fine cars, nevertheless we are actually in the position of having more orders than we can fill."

Will Observe Week
"It is because this is the situation throughout the country in Nash agencies that the officials of the company have conceived the idea of Oversold Week. When any car can create a demand in excess of factory capacity, when at the same time the plant is at its peak of production, there must be a reason. The reason is the Nash car itself."

It is human nature for the public to love a winner. Success breeds success. All over the country, the spirit of Nash popularity has become contagious. It is a history-making situation in the automobile industry and we will observe it at the McDaniel Motor Co. with a week of special displays in our showrooms, to which we cordially invite the public."

GAS TAX RECEIPT
Since the 2-cent gasoline tax went into effect July 1, 1923, motorists in Pennsylvania have paid \$12,009,000 to the general fund of the state treasury. Collections made during the last quarter were \$2,248,474, as compared with \$953,160 for the same period in 1923.

may be assembled. The great significance of this demonstration lies in the standardization feature, the dealers claim, since all Buick owners may be assured of service and parts wherever they may be, as all dealers carry complete stocks for their owners. It also shows the value of using genuine Buick parts throughout, they claim.

DEALERS DRIVE MACHINES AWAY

Largest Shipment of Cars
Sent Out by Factory
Unloaded In L. A.

Southern California automobile dealers who are selling the Maxwell cars took delivery of the latest consignment from the factory at Los Angeles early this week, driving away what is described as the largest shipment ever consigned to the distributors in this section.

Among those who participated in the drive-away was Lyman P. Clark, of the Glendale Motor Car Company, 124 West Colorado street, Maxwell and Chrysler distributor, who secured a number of the cars for his customers in Glendale, and who is enthusiastic over the refinements that are constantly being added to the Good Maxwell by the Chrysler engineers.

"The elimination of vibration in the present Maxwell," says Mr. Clark, "through the adoption of the floating spring suspension, is admitted to be but one of the really revolutionary features that has been installed by the Chrysler engineers, and that has contributed more toward riding comfort and the longevity of the car itself than almost any other new addition to present day automobiles."

Revise Comparisons
"The development of the four cylinder engine, as perfected by the same expert engineers, has brought the Good Maxwell into a position where the former opinions as to the comparative merits of the four and the six cylinder motors have been radically revised. The possibilities of the four cylinder engine have reached their highest point in the Maxwell, and the acceleration that is made possible in this improved power plant demonstrates conclusively that the present Maxwell four cylinder engine has also the right to be classed as among the major advances in the automotive industry."

Maxwell cars today, Mr. Clark points out, are averaging 24 miles to the gallon of gasoline, another important feature in providing economical transportation for the owner of the car, while the engine bearings are built to last for the life of the machine, without need for replacement.

NEW EQUIPMENT FOR SERVICE SHOP

Glendale Tire Service Also
Adds Another Tire Line
To Present One

New equipment of the latest design will be installed in the shops of the Glendale Tire Service at 306 East Colorado boulevard, in order to care for all tire users, according to R. B. Coogan, manager. The new equipment will be placed in operation some time this week and the shop will be in position to care for all needs of tire users.

Addition of the Racine line of tires to the present line of Federal tires, is also announced by Mr. Coogan. The Racine company is turning out all the latest balloon type tires and their motto is service and satisfaction.

Tire users will benefit by looking over all lines of producers before purchasing at the present time. With the competition so keen, each company is striving to put forth the best product possible and the result is tires that last longer than ever before.

SPORT MODELS TO BE BUILT HERE

C. L. Smith Sales Co. Will
Dress Up Chevrolets
For Customers

After having numerous demands for a car equipped with all the luxuries and appearance of a much higher priced machine, C. L. Smith, local distributor for Chevrolet cars, announces that a sport model will be built in their own shops, under the direct supervision of H. W. Smith, manager of the firm.

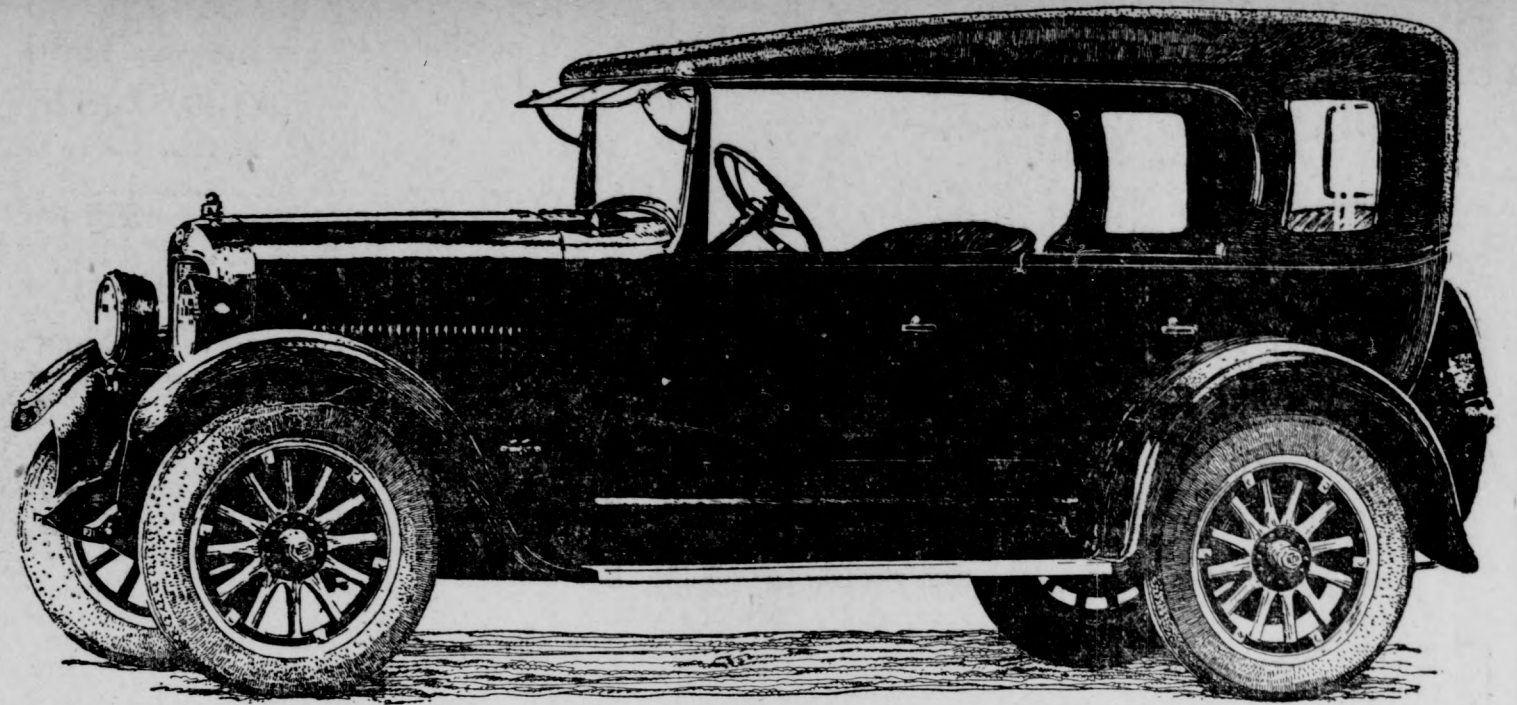

The sport model to be turned out by that firm will be a standard Chevrolet touring car, but the extras will be many and numerous conveniences will be provided for the motorist. Everything from side-wings to tonneau windshields and other extras will be included on the job and the price will be \$725.00, considerably lower than any other sport car offered on the market with the qualities of the Chevrolet.

A demand locally has already been shown for the machines and shortly it is predicted that the cars will be in evidence in the locality. The product may be seen at the local show rooms, corner of Orange and Colorado.

OLD TAXI DRIVER

The oldest taxi driver in London is John C. Fisher, aged 77. He has been driving hansom cabs and motor cars through the twisting streets of London for fifty-six years.

**Reports Show Sale of
Automobiles Gaining**

(Continued From Page 5)

siderable degree for less advantageous conditions of some other General Motors subsidiaries. The Paige factory shows signs of increased activity and so do many other plants here. One sure sign of this trend is the number of automobiles parked about the plants, for 37 to 50 per cent of the workmen employed in many of the factories own cars and go to work in them.

Set Steady Pace
Two concerns have not jumped up their production schedule and they are among those companies in the strongest positions. The Dodge Brothers have maintained a steady pace all year. So have the Hudson and Essex plants and each has done a remarkable amount of business.

Experts here point to the Dodge record to substantiate their declaration that the habit of piling up a reserve stock of cars for the spring trade is gone forever. The Dodge Brothers did not do this last winter, preferred to take a chance of making customers wait rather than load themselves and their dealers down with heavy stocks of manufactured cars. Other manufacturers did so and suffered severely in consequence.

**Herd of Deer for
Park Accepted by
Supervisor Board**

LOS ANGELES, Oct. 2.—Los Angeles county supervisors today dispatched a letter accepting the offer of John Brockman to take his herd of thirty Texian deer from the hills north of Glendale to the county park in Big Pine flats.

Mr. Brockman stated the deer were being chased by dogs and the thirty deer animals no longer have the security of the Verdugo hills, with many subdivisions in the vicinity of the Brockman estate.

The deer were brought from Mexico in 1909 and multiplied rapidly.

**Crowd Taxes Capacity
Of Church at Meeting**

A record crowd attended the prayer meeting services held at the Presbyterian church last night, so many people being present that it was found necessary to open another room of the social hall to accommodate them. Rev. W. E. Edmonds spoke on "Faith and Conviction" in the series of Familiar Devotional Talks, and after this the next half hour was spent in getting acquainted with strangers. The Rhoda club held its regular Tuesday night dinner with a full attendance and devoted the time to the usual line of work. Other events scheduled for this week at the church include the county intermediate Christian Endeavor meeting in the social hall at 7:30 o'clock tonight. The Y. M. C. A. teams will have dinner and conference in the dining hall tonight.

The Young People's Society of the C. E. will give a banquet and conference in the clubrooms of the church at 7:30 o'clock. There will be a program at which Miss Mary McDill will preside as toastmistress. Sunday, October 5 the services of the Presbyterian church will be of special interest. Rev. Edmonds has chosen for his subject at the morning service "Can the World Reproduce Calvary?" A splendid program of music has been arranged for each service.

**Attractive Prizes at
Cooking School Today**

Unusually attractive attendance prizes featured today's program at The Glendale Evening News' Better Homes, Better Foods school, now being conducted by Mrs. Florence Austin Chase in Hahn's auditorium. The prizes were:

An eight-day, hour and half hour striking mahogany finish, mantel clock, value \$16.50, given by the Lewis Jewelry Co., 123 North Brand boulevard, G. N. Stark, manager.

Choice of any pair of ladies' shoes at Webb's Shoe department, courtesy Shoe department Webb's, L. M. Brotherton, manager.

Silk and mohair ladies' sweater, value \$10, courtesy Fashion Center, 202 South Brand boulevard, Messrs. Dynas & McKenna, proprietors.

High grade, beautiful pattern wall paper for bedroom, with border to match, value \$9, given by the Glendale Paint & Paper Co., Wm. Hunter, proprietor.

**John R. Quinn to Be
Speaker at Banquet**

John R. Quinn, past national commander of the American Legion and vice president of the Seaboard National bank of Los Angeles, this afternoon in Los Angeles assured Joseph Wilson, commander of Glendale post No. 127, that he would deliver the principal address of the local legionnaires annual banquet at the Oakmont Country club the evening of October 14. J. W. Foley, poet, and singers also are billed for the program.

BUILDING PERMITS

Total for year 1921.....\$ 5,099,201
Total for year 1922..... 6,305,971
Total for year 1923..... 10,945,094
Total for 1924 to date 7,920,358

Building permits for October reached \$65,450 at noon today, bringing the total for the year to \$7,920,358, according to figures in the office of H. C. Vandewater, building superintendent. Following is the list of permits issued thus far in October:

**Senators' Mound Staff
Is Believed Slipping**

(Continued from Page 1)

in the opening game, the fourth and seventh, if any. Upon his ability to beat the Giants at least twice rests the hope of the Senators. If he doesn't the burden will fall upon Morridge and Zachary, and the Giants are not particularly harassed by lefthanders. As for Johnson, it is a fact, not fiction, that McGraw's club is rather partial to fast ball pitching, although Johnson's fast ball may be something else again.

The possibility that Marberry may be rushed in from the bullpen in time to save any or all the trio mentioned is imminent. But, without, it would appear that the Giant staff carries the greater balance.

Whether Gowdy will be able to get as much out of his pitchers as Ruel figures to do, is another matter. Ruel not only is a better catcher than any man the Giants can muster, but he is likely to give his pitchers a bit more assistance. That is one defensive sector that favors the Senators.

'Harris-to-Peck'

Another is the infield, although the writer expects many to take violent issue with him on that point. But, outside of the batteries, what are the most important defensive sectors? Go to the head of the class, Joseph. Second base and center field. What is the best keystone combination in the game today? Correct again, Harris and Peckinpaugh of the Senators. They have proved it by making more double plays than any other combination on the big time.

Frisch and Jackson are fine ball players, but they don't work together like Harris and Peck. In fact, Frisch, relieved of the pressure of the sprightly, agile Bancroft on the left side of the bag, has not played with his usual aplomb this season. It is said that the burden of leading his team in the field has weighed upon him.

At first base I would give Judge a slight edge on Kelly, although the latter is a great mark for infielders to shoot at.

Featured by Songs and
Short Addresses**

Glendale Rotarians engaged in one of the most enjoyable luncheon sessions of the year this afternoon at the Tuesday Afternoon clubhouse, when George L. Karr was given the presiding officer's chair by President J. Herbert Smith for the presentation of a "mock banquet."

The Rotary quartet composed of Paul Stillman, R. L. Kent, Willis Lusby and R. Ernest Tucker, director, favored with roundelays with Paul Carson, accompanying, in an inimitable manner. Rufe Downing, J. I. Wernette and Ed Nisle responded to the call of the toastmaster and Dan Kelly's

own song was sung, much to his appreciation. Visitors included Harlow B. Potter, Sam Hall, Robert P. Miller, Los Angeles; A. E. Dufur, Burbank; L. R. Tanner, Brainard, Minn., and Noel S. Ladel, Colton. At the close of the session the clubman rehearsed the songs closing with the following: Smile the while we bid a fond adieu, I've enjoyed this hour spent with you; Hope that next week I may see you again at Rotary. May the time that we shall spend apart Bring you peace and joy, God bless your heart, Then here's my hand, old pal of mine, 'Til we meet again.

**C. of C. Directors to
Hold Dinner Tonight**

Directors of the Glendale Chamber of Commerce will meet at the Alley Inn tonight at 6 o'clock for dinner, to be followed by a business meeting of the board.

How to Use Puritas Water to Regain Health

Used according to directions, Puritas assists nature in curing disease and in restoring health.

Order a Puritas cooler today and ask the delivery man for booklets and literature; he will tell you how to use Puritas for relief from many distressing conditions; stomach trouble, kidney and bladder diseases, high blood pressure, hardening of the arteries, rheumatism, toxemia, etc.

Thousands have been greatly benefited by using Puritas according to directions. Puritas is a soft, mineral-free water, made according to Government specifications; it has remarkable health-giving properties, and its daily use assists nature in removing poisons and acids, washing and flushing the system.

For information about Puritas and how to use it to restore health, address Puritas Health Club, Box 10, Arcade Station, Los Angeles, or Phone TRinity 1861.

Housewives Learn How To Make Better Homes

(Continued From Page 3)

the auditorium stage. In addition to being a butcher of wide experience and real success, Mr. Hartman possesses the ability to talk in public. This made his demonstration doubly interesting and valuable. As he cut the huge quarters of beef into the choice cuts, he explained each one. Mrs. Chase enlarging upon his talk by giving hints as to buying meat and preparing it.

Previous to Mr. Hartman's demonstration Mrs. Chase gave some splendid sandwich recipes and continued her course on home arrangement and management. Yesterday she used a Garland gas stove, equipped with oven control, furnished through the courtesy of J. A. Newton Co.

Prize Winners
Prizes awarded at the close of the session were the fine cuts of meat used by Mr. Hartman in his demonstration, and cans of Chase & Sanborn coffee, donated through the courtesy of A. W. Perry, local representative. Those holding lucky tickets were Mrs. J. Felton, 1229 Grand View; Carrie Woolsey; Ruth B. Wood, 314 Oak street; Victoria Elliot; Mrs. R. C. Racine, 320 West Broadway; Marion Ellis, 705 East Chestnut street; Mrs. Julian Cook, 712 South Pacific avenue; Mrs. T. B. Hollywood; Marie Gifford, 414 East Wilson; Jennie Henthorne, 423 West Oak; Helen M. Hazard, 125 West Maple; Mrs. H. Ridsdale, 1015 South Columbus avenue; Mrs. George Mason, 1366 East Garfield street; Mrs. J. C. Phillips, 1315 South Glendale avenue; Mrs. James E. Moore, 333 Brent place; Mrs. L. B. Guttenfelder, 612 Alexander street; Mrs. C. W. McFadden, 404 Fischer street; Florence E. Wright, 1411 Verdoaks drive.

Exhibits arranged in the hall by Glendale merchants are proving of great interest and value to the women attending the school. Each exhibit contains articles that follow out the suggestions made by Mrs. Chase in her home and domestic science talks.

Stewart Gas Range Is Long Noted for Merit

The old adage, "Appearances are sometimes deceiving" is a good one, declared Kenneth Beldin, of the Beldin Sales Co., 117 North Maryland avenue, today, when he said that "It was a very difficult matter for the average woman to choose the best gas range adapted for her needs, by simply looking at it. It is only by use that its real merits or demerits can be determined." "It is for this reason that this company is making a very unusual proposition on the sale of Stewart gas ranges.

"After the model designed is selected, the stove is installed for a thirty-day trial and if, at the end of that time, the housewife is not satisfied with the results obtained, the stove is removed, and she is under no obligation whatever to buy. The only condition that we impose with this proposition is to use the stove all she possibly can," he concluded.

Featured at The Glendale Evening News' Better Homes, Better Foods school, in the Beldin Sales Co.'s booth are a number of attractive models of the Stewart gas range.

Some idea of the length of time during which American housewives have been familiar with Stewart ranges is the company's motto, "Your Great Grandmother Used a Stewart."

A new rubber bumper put on autos absorbs jolts in collision.

Burr Creamery Co. In Model, Efficient Plant

Attesting the rapid growth and development of Glendale as a distinctive suburban metropolis, is the recent location here of the Burr Creamery Co., at 551 West Park avenue. As a matter of fact the location might rightly be termed Los Angeles street, but inasmuch as this is a new Glendale street, the first address stands. The Burr Creamery began its operations here by purchasing the Jessup dairy some two or three years ago. Since that time the large building and grounds at the Park avenue location have been purchased. Work of remodeling the building and turning it from an old hotel to a modern sunlit creamery building was begun at once and brought to completion just a few days ago.

As it now stands the building with its grounds and equipment represents an investment of approximately \$200,000. This, of course, covers the cost of milk trucks and all other apparatus. The plant is equipped with a thirty-five ton ice machine, which means that the company makes all of its own ice right in its own plant. In the building are two of the largest and most modern cooling rooms to be found anywhere in the southland.

Outstanding above every other thought pertaining to the conduct of the plant is that of "Cleanliness" second to that is "Regularity" while last is "Courtesy." These are the three principles upon which the Burr Creamery Co. business has been built, declares Harry A. Walsh, manager for the company.

The fact that during the four months that the Burr Creamery Co. has been operating here, the business has increased three times, is a strong testimonial to the fact that the above principles are being strictly adhered to, he said.

Almost every housewife is familiar with "Ideal Certified" and "Guaranteed" raw milk, the two brands produced and bottled by this company. It might be of interest to add that these brands of milk are produced from the herds of Roger W. Jessup, former proprietor of the Jessup dairy, and have been used by Mrs. Florence Austin Chase during this week, in her cooking demonstrations at The Glendale Evening News' Better Homes, Better Foods school now being conducted at Hahn's Auditorium, 109-A North Brand boulevard.

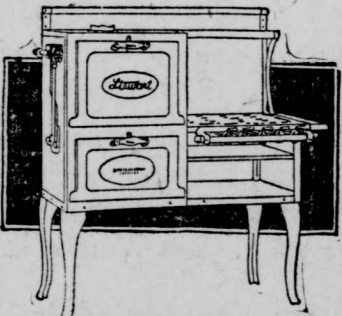

Demonstrates Calumet Before Cooking School

For years Calumet baking powder has been a familiar sight on the shelves of the grocery store and thousands of American housewives every day add to the happiness of their households through the use of this wonderful baking powder in their baking operations. It has remained, however, for Mrs. Florence Austin Chase, nationally known domestic science expert, to demonstrate Calumet at The Glendale Evening News' Better Homes, Better Foods school, to the entire satisfaction of her audience.

Those who were not present at yesterday's session of the school, when several pans of wonderful biscuit were baked and sampled, would realize that "to the entire satisfaction of her audience" is putting it mildly, provided that they could have been present and could have heard the "Ohs" and "Ahs" of approval when the samples were passed around and tasted. Folders and pamphlets telling of the modern uses of Calumet were distributed and the fact that Calumet can be bought at any grocery emphasized.

A small pocket microscope recently invented magnifies an object 225 times its actual size.

DEATHS - FUNERALS

MRS. CARRIE BENNETT
Mrs. Carrie Bennett, wife of A. V. Bennett of Wasco, Cal., died Tuesday, September 30, 1924, at Monrovia at the age of 40 years. Besides her husband Mrs. Bennett leaves a daughter, Lucile M. Bennett; two sons, Eugene and Gordon Bennett; and a father, J. M. Hoyle. Funeral services will be held at 4 o'clock Saturday afternoon in the Little Church of the Flowers, Forest Lawn Memorial park. Rev. Philip K. Kemp, rector of St. Mark's Episcopal church, will officiate. L. G. Scovern, director.

MRS. BEATRICE L. HANLON
The death of Mrs. Beatrice L. Hanlon occurred Wednesday, October 1, 1924, at 336 Mira Loma drive at the age of 57 years. She is survived by her daughter, Mrs. W. A. Russell; by a sister, Mrs. Woody of Missouri, and a brother, V. Lewis of Missouri. Funeral services will be held at 3 o'clock Friday afternoon in the Little Church of the Flowers in Forest Lawn Memorial park. Dr. J. H. Winnard, pastor of the Tropico Presbyterian church, and Dr. G. N. Hobson will officiate. L. G. Scovern, director.

MRS. MARION HADCOCK
Mrs. Marion Hadcock died Wednesday, October 1, 1924, at the home of her daughter, Mrs. L. B. Stokes, 1124 North Central avenue at the age of 75 years. Besides Mrs. Stokes, she leaves three sons, J. H. Hadcock, B. A. Hadcock of Lodi, and George W. Hadcock of Schenectady, New York and a nephew, Charles Hadcock of Lodi. Her body was taken to Lodi today by the L. G. Scovern Undertaking Co., for services and burial.

HARRY R. SIBLEY
Harry R. Sibley, for eighteen years a resident of Glendale, died Wednesday, October 1, 1924, at a Los Angeles hospital at the age of 61 years. He is survived by his wife, Laura E. Sibley of Western avenue, and a daughter Mrs. Leatha E. James, also of Glendale. Funeral services will be held at 2:30 o'clock Saturday afternoon in the L. G. Scovern chapel on South Brand boulevard. Interment will take place in Forest Lawn Memorial park.

ALEXANDER DUNBAR
Funeral services for Alexander Dunbar, who died Thursday, will be held at 10 o'clock Saturday morning in the Holy Family Catholic church. Interment will be in Calvary cemetery. Kiefer & Eyerick, directors.

MISS HELEN HAVENS
Miss Helen Havens died Wednesday, October 1, 1924, at 1532 El Rito street, at the age of 36 years. She was a native Californian. Surviving her are her parents, Mr. and Mrs. Howard C. Havens; a sister, Miss Florence Havens of San Pedro; and a brother, Arthur W. Havens of

PUBLIC NOTICE

WHEREAS, The City Council of the City of Glendale, has heretofore by Ordinance No. 529, established certain Residential, Industrial and Commercial Districts in the City of Glendale; and

WHEREAS, pursuant to the provisions of Section 2, Article XV of the Charter of the City of Glendale, a petition has been filed with the City Clerk of said City by L. B. Valdez and others, asking that the Commercial District established by said Ordinance No. 529, be amended and changed so as to include in said Commercial District said property described in said petition and more particularly hereinafter described; and

WHEREAS, said City Clerk has presented said petition to the City Council; and

WHEREAS, before any change can be made in said District, it is necessary under said Section 2 of Article XV of the Charter of said City, and said Council has directed that public notice of a hearing upon said petition be given by the City Clerk by one publication in the official newspaper of said City, at least seven days before the time of said hearing;

NOW THEREFORE, and pursuant to the provisions of said Section 2 of Article XV of the Charter of said City of Glendale, and the direction of said City Council, the City Clerk of said City hereby gives notice that at the hour of 10 o'clock A. M. of the 23rd day of October, 1924, at the Council Chamber in the City of Glendale, a public hearing will be given upon said petition for amendment or change of said Commercial District before the City Council; and

FURTHER NOTICE IS HEREBY GIVEN, that at the hour of 7:30 P. M. of the 20th day of October, 1924, at the Council Chamber in the City of Glendale, a public hearing will be given upon said petition for amendment or change in said Commercial District, when any persons having any objections to said amendment or change in said Commercial District, may appear and present any objection, or objection, which they may have to said proposed amendment or change in said Commercial District. Any person not appearing at said hearing, or at said public hearing, will be deemed to have waived any objection to said proposed amendment or change in said Commercial District.

That property described in said petition and sought to be included in said Commercial District, is described as follows:

All of Lot 9, 10, 11, 12 and 13 of the Watson and Nelson Tract, according to Book of Maps, Page 7, Lots 19, 20, 21, 22, 23, 24 and 25, of the Fourth Street Tract, M. R. 43-92 and Portion of Lot 75, Watts Subdivision, M. R. 5-201 and Lots 11 and 19 of Tract 5265 M. B. 36-81,

CITY PRINTING

and Lots 1, 2, 3 and 4 of Tract 4490 M. B. 52-70, this being the South Side of East Broadway from Olive Street up to Easterly Glendale City Limits.

All of Lot 41, 40, 39, 38, 37 of the Portion of Watts subdivision M. R. 43-92, Extension of Fourth Street, Verdugo and Broadway Tract, also Lots 24, 25, 26, 34, 33, 32, 31, 30, 29 and 27 of the Fourth Street, Verdugo and Broadway Tract, as per M. R. 43-92.

Portion of Lot 74 Watts Subdivision as per M. R. 5-201-201.

Lots 9, 10, 11, 12, 13, 14, 15 and 16 of Tract No. 4866 M. B. 53-21 Los Angeles County Records.

Lots 9, 8, 7, 6, 5, 4, 3, 2 and 1 of Tract No. 4491 M. B. 49-13 and all of Lot 1, of the Tract 4561 as per M. B. 52-68, Los Angeles County Records, this being the northerly side of Broadway including all the Lots from Olive Street east to the City Limits of Glendale.

The petition above referred to is on file in the office of the City Clerk of the City of Glendale and is hereby referred to for further particulars.

This notice shall be published once in The Glendale Evening News, the official newspaper of said City, at least ten days before the date of the hearing hereinafter mentioned. Dated October 2, 1924.

A. J. VAN WIE,
City Clerk of the City of Glendale.

PUBLIC NOTICE

NOTICE OF THE FILING OF THE ASSESSMENT FOR THE OPENING AND LAYING OUT OF DOROTHY DRIVE IN THE CITY OF GLENDAL, TOGETHER WITH THE DIAGRAM OF THE DISTRICT TO BE ASSESSED FOR SAID IMPROVEMENT.

PUBLIC NOTICE IS HEREBY GIVEN that the Street Superintendent of the City of Glendale has filed with the City Clerk of the City of Glendale the assessment for the opening and laying out of line of Tract No. 4914, as per map recorded in Book 52, Page 86 of Maps Records of Los Angeles County, California, to the south of line of Columbus Avenue, in the manner contemplated by Ordinance of Intention No. 650, together with the diagram of the district to be assessed therefor.

The date of the first publication of this notice is the 27th day of September, 1924. All persons interested are hereby required to file, in writing, their objections, if any they have, to the confirmation of said assessment by the Council of the City of Glendale, within thirty (30) days after the said date of the first publication of this notice.

A. J. VAN WIE,
City Clerk of the City of Glendale.

NOTICE OF SALE

NOTICE is hereby given that Sol Rosenthal, present owner of that certain Grocery and Soft Drink Stand, located at No. 1123 So. San Fernando Road, Glendale, Calif., has sold the same to Joe Paolletti and Adeline Paolletti, who take immediate possession thereof. Said Sol Rosenthal is responsible for all bills previous to this date, and Joe Paolletti and Adeline Paolletti will be responsible for all bills from and after this date.

Dated September 24, 1924.

HOME FROM TEXAS

Mrs. D. M. Hart, head nurse at the Glendale Research hospital, has returned from a delightful vacation, spent in Texas.

More than 300 cities of this country employ policemen.

Systematizing Home Is One of Big Problems

(Continued From Page 3)

sides the running of the home, to occupy their time.

The efficient business man maps out a certain schedule on which to run his business and follows it, changing it only here and there when he sees that it will improve his efficiency.

The efficient housekeeper should be as proud of her home and just as eager to have it run smoothly and within the income of the man who pays the bills.

Mrs. Chase will take up this subject tomorrow and tell women how to apportion their work so that all of it will not fall on the same day.

Cal's Baking Tomorrow

Mrs. Chase will make and bake several cakes tomorrow, giving the recipes out while the work is going on. Fillings for different types of cakes will be made and passed through the audience for judgment.

The subject of today's lecture proved to be one of the most interesting and profitable of home lectures in the series. Mrs. Chase talked on table harmony, unity, line and proportion. She went into the question of silver and linen, telling them not to put their silverware for display on the table, but to have only that silver on the table which would be needed in the meal. She told them how the different pieces should be laid on the table, the etiquette of serving and the uses of the service plate.

Instruct Children

Questions from the audience brought out the uses of the tea wagon as a serving table in homes where women do all of their own work, and Mrs. Chase told how easily a meal could be served by arranging changes of dishes and silver on it.

"Correct table manners should be taught children," said Mrs. Chase and cautioned the mothers against letting the little ones form bad habits at the table. "Start at the very beginning to teach your child table manners, and, as we are all creatures of habit, it will be natural for them to acquire good table habits instead of the contrary. Many a grown man today regrets that his mother did not make him learn the correct way to use his knife and fork when he was a youngster."

Appeals to Women

The domestic science lecture was a most satisfying one, and one that appealed to every woman in the audience who liked the daintiness and delicacy in dress. A mock pudding and a mousse were taken out of the moulds and sampled by as many women as it would reach, the recipes being given from the stage.

Pastry and the art of making it was explained thoroughly, and when baked was passed for sampling. It truly "melted in the mouth."

Many questions were written and answered by Mrs. Chase on

MORE TRAFFIC OFFICERS SOUGHT

Parent-Teacher Federation Asks Additional Men for Glendale Streets

Mrs. O. H. Spradling, president of the Glendale P.-T. A. federation, appeared before the City Council this morning with a formal written report of that body, recommending that additional traffic officers be placed at the following locations, as an additional protection to school children: Brand boulevard and San Fernando road, San Fernando road and Magnolia avenue, Glendale road and Western avenue, Pacific avenue and Brand boulevard, Colorado and Brand boulevards and Colorado boulevard and Pacific avenue.

Adopt Resolution

The report was accompanied by a resolution adopted by the federation and requested in person by Mrs. O. H. Spradling, its president, urging that the council pass an ordinance similar to the one now in effect in Los Angeles. The council referred the report to Chief John D. Fraser of the police department and Virgil B. Stone, city manager, for consideration and recommendation.

The proposed ordinance regulating barbers and barber shops in the city of Glendale, introduced before the City Council on Thursday, September 25, did not come up at today's session.

Continue Hearing

The hearing on the improvement of Cypress street was continued to October 16. The proceeding for improvement on Colorado boulevard were abandoned. The proceedings for improvement of Pepper way were abandoned. All protests were denied on the assessments for the improvement of Monterey road and Hermosita drive, all protests were denied on the proceedings for the sidewalk improvement on Sycamore Canyon road and all protests were denied on the issuance of bonds for the improvement of Briar lane. The necessary measures were put through for carrying out the above. The council adjourned at 12:30 o'clock, to reconvene at 3 o'clock this afternoon.

REALTORS TO BE GIVEN GREETING

Local Committee Will Meet Northern Caravan at Burbank Tuesday

Visiting realtors from Northern California will be given a royal reception in Glendale Tuesday afternoon when they arrive from Sacramento in a large auto caravan, when fifteen agents from local real estate firms will meet them at Burbank and escort them through this city. Lloyd Myers, chairman of the caravan reception committee, has planned for the local delegation to greet the northern men in the neighboring city and then to show them around Glendale before they go on to Pasadena to attend the state convention of the California Real Estate association.

The complete committee appointed by the Glendale Realty board to work out plans for the local organization's part in the convention has completed arrangements and is ready for Glendale to have a hundred per cent representation.

Committee Chairman

The committees and the chairman of each is as follows: Stunts, W. L. Truitt; home town contest, W. L. Twining; business and pen-palants, Jas. W. Pearson; election of state directors, E. P. Hayward; advertising contest, W. S. Kirk; convention headquarters, President Peter Hanson and W. L. Twining; sports, Jack Galvin; attendance, H. L. Finlay; finance, J. M. Rhoades; publicity, W. A. Horn; entertainment, J. M. Boland; transportation, T. H. Menk.

A full attendance is being sought by the attendance chairman for Glendale and from those already registered it appears as though most of the local members of the board will be present for the three-day meeting.

Upholstering Co. Will Open on South Brand

The Glendale Upholstering & Interior Decorating Co., has taken a lease on the building at 213 South Brand boulevard, where it will be ready for business in about ten days. The store will be managed by Bert Delacourt and Robert Pierson, who state they will handle only high grade upholstery and will be prepared to care for the needs of residents of Glendale and vicinity.

Elderly Man Is Slightly Hurt in Street Fall

C. G. Hatfield, about 55 years old, was taken to the Glendale hospital at 1:45 this afternoon to be treated for slight injuries as the result of slipping on the curb opposite the offices of J. A. Endicott, 116 South Brand. The nature of Mr. Hatfield's injuries were not determined at once, but they were thought not to be serious.

The subject of table etiquette, arrangement of dining rooms and kinds of desserts which would go best with different meats. Altogether it was very profitable and interesting afternoon.

HOLD INSPECTION OF STREET LIGHTS

Property Owners Visit Long Beach on Investigation Of New System

Fred S. Dixon and Ralph W. Meeker, accompanied by a group of other prominent property owners on Colorado boulevard, went to Long Beach last night to inspect a recent large installation of street lights manufactured by the Westinghouse Electric & Manufacturing Co.

When interviewed, Mr. Dixon stated that he and Mr. Meeker, together with other property owners, had wished to investigate the product of the Westinghouse Co., inasmuch as this company had recently entered the field in the proposed Colorado boulevard lighting system. He reported that "the installation was highly satisfactory and that various persons interviewed in Long Beach were very enthusiastic over the efficiency and appearance of the posts and lights."

"The post is of cast iron composed of a special mixture making it capable of withstanding a terrific impact, and as an added measure of safety was reinforced through the center by tubing which, in the event of the post being shattered, would greatly lessen the danger of the top coming to the ground," said Mr. Meeker.

The cost of the equipment, according to Mr. Meeker, was found to be quite satisfactory, and the installation in general was agreed upon by those making the investigation as "being very suitable and desirable for Colorado boulevard, and would result in Colorado boulevard assuming a position of distinct individuality in street lighting."

Mr. and Mrs. E. D. Yard Tour Eastern States

Mr. and Mrs. E. D. Yard of 431 North Maryland avenue returned yesterday from a most enjoyable trip of three months spent visiting in eastern states. En route east they stopped in Denver, Chicago, Pittsburgh and Philadelphia. In Pennsylvania they visited relatives of Mr. Yard, in his childhood home. Rains in Nebraska caused them to detour and they were twelve hours on the road before being able to return to the main highway.

The Yards visited in Vermont, the state in which Mrs. Yard was born and also in Boston, where they left their son, Waldo, who made the trip east with them, at Tufts Dental college, in Boston, where he has entered as a freshman. The itinerary of their trip included a tour along the Jersey coast and a visit to New York.

Their trip homeward included stops at Detroit, Minneapolis and Seattle, where they took the boat stopping at San Francisco. Mr. and Mrs. Yard visited friends in Seattle who took them on a trip to Rainier National park. Yard stated that their car was the last tourist car to make the trip to Paradise Valley in the season of 1924.

To the Colorado Boulevard Property Owners

Extracts from Vermont-Beverly Association letter to
Mr. Russell Graham,
1120 E. Colorado Blvd.,
Glendale, Calif.

The Union Metal Lighting standard, in our opinion, is a beautiful and artistic electrolite that will blend in nicely with the architectural appearance of the store fronts and buildings that form a background for the row of electrolites that grace a thoroughfare.

Also, this standard impressed us as being symmetrical in design and not cumbersome or disproportioned, as the Marbelite Electrolite of equal height happens to be. A comparison of the architectural features of a 17-foot Marbelite Electrolite with this particular standard would certainly bring forth a vote in favor of the Union Metal Post.

In addition to this, the repair of the Marbelite Standard in the large type is quite expensive when it becomes broken, whereas the straightening out or repairing of the copper jacketed Union Metal product is relatively a simple and inexpensive process. As a matter of fact, the small Marbelite standards for purely residential streets where an inexpensive and non-advertising light is desired, may be accepted as appropriate, as this post is of course cheaper and probably would prove very satisfactory, but where a large 17-foot electrolite of a distinctive type where a daylight and ornamental value is sought, in addition to the illuminating features and also where the type of electrolite sought is one that will have an advertising value for the retail and trading possibilities of a thoroughfare, then in the judgment of our Committee, the Marbelite electrolite would not compare with the type design of electrolite put out by the Union Metal firm.

We have therefore taken pleasure in stating our views and as a result of our investigations, believe that the Union Metal electrolites are superior to all others that have been placed on the market and are more suitable for business streets and traffic thoroughfares and in answering your inquiry are glad to recommend this type of electrolite.

Trusting this letter will answer your inquiry satisfactorily, we beg to remain,

Yours very truly,

VERMONT-BEVERLY ASSOCIATION,
(Signed) R. W. Wheeler, President

The facts concerning the ornamental street lighting of Colorado Blvd. are:

1. On October 25, 1923, the City Council of Glendale, acting on petition of majority of property owners of Colorado Blvd., instructed the City Attorney and the Superintendent of Plant and Production to draft the necessary ordinance for an ornamental lighting system using two light pressed steel standards of the same design as adopted for Glendale Avenue.

2. The City Attorney and Superintendent of Plant and Production, on July 24, 1924, were instructed to prepare separate proceedings for the installation of pressed steel standards on Colorado Blvd. from San Fernando Road to Glendale Avenue, excepting between Central Avenue and Brand Boulevard.

3. On July 29, 1924, a body of people, a few of which were property owners on the east side of Colorado Boulevard, styled as the Colorado Boulevard Improvement Association, communicated with the City Council, asking that proceedings be stopped on Colorado Boulevard until a Protest Petition be presented.

4. Then on July 31, 1924, a petition circulated by Mr. F. A. Clarke of the Marbelite Corporation covering approximately 75% of the property frontage was presented to the City Council. At the same time other property owners presented to the Council various letters tending to prove that misrepresentation had been used in securing signers to the Protest Petition.

5. The City Council then denied all petitions and requested new petitions be issued by the Superintendent of Plant and Production to the several ornamental street lighting companies.

The above facts are presented in view of the unethical business tactics employed by Mr. Clarke, the Glendale representative of the Marbelite Corporation. That company has seen fit to issue a letter which does not contain the facts in regard to this proposition and has also issued a poster to be mailed the property owners which is a mass of misinformation.

Glendale, October 2, 1924

We, the undersigned property owners of Colorado Boulevard, have personally investigated the different lighting standards in and around Glendale and do recommend to the property owners that they sign the Union Metal Petition asking for the pressed steel standard, the same as adopted by Glendale Avenue, Central Avenue and Broadway, Glendale.

(Signed)

RUSSELL GRAHAM,
NADIA (NETTIE) WILLIAMS,
M. ADELIN MUNN,
EVA DANIELS,
OBE KENNEDY,
W. W. WALKER.

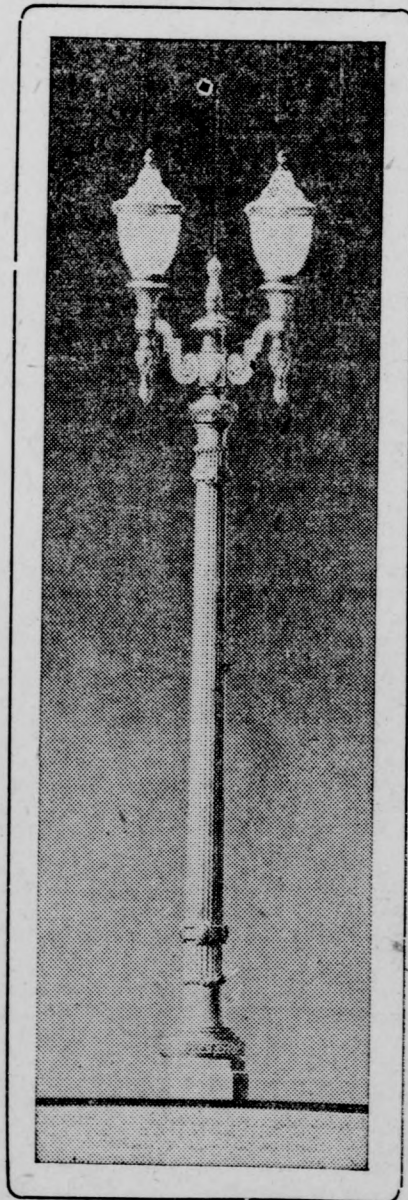

The above facts prove that the Union Metal Manufacturing Company standards had been petitioned for by a majority of property owners practically a year ago and necessary action had been taken by the City Council on these petitions. The Marbelite Company in their campaign of misrepresentation has tried to lead the property owners to believe that the lighting improvement on Colorado Boulevard was started in June this year, at which time they were laying their plans to try to break down a proposition that had been approved by the majority of property owners over seven months previously. Many of you have been misled as regards to price, material, and other facts regarding pressed steel standards by the unscrupulous misrepresentation of a competing company. **FACTS ABOUT UNION METAL PRESSED STEEL STANDARDS.**

This company is the oldest and largest manufacturer of ornamental lighting standards in the world. In this country over 1200 of the leading cities and towns are using more than 200,000 Union Metal Standards.

On August 30, 1924, the City Engineer of Los Angeles made a written statement that there had recently been installed or had been ordered in by the City Council over 112 miles of Union Metal pressed steel standards.

Buffalo, New York, has been using this type of standard for 14 years and installed over 7000 standards during that period. Cleveland, Ohio, has in the past ten years installed over 5000 pressed steel standards. Their purchases during this year have already amounted to over 1400 standards.

The entire ornamental lighting system of Salt Lake City, Utah, is of Union Metal Standards. Such cities as St. Paul, Minn.; Dallas, Texas; Nashville, Tenn., as well as over 1200 other cities use Union Metal Standards in large numbers. In the City of Chicago there is just being completed an installation of the largest and most ornamental standards ever furnished for that city, these standards being manufactured by the Union Metal Company and installed under city ordinance and under permit issued by John T. Miller, commissioner of gas and electricity, who Marbelite people claimed has denied that Union Metal Standards can be placed on the streets of Chicago. There is also in the Union Metal Factory an order from Chicago for a large extension for the system now being installed.

Union Metal Standards have been successfully sold in increasing numbers each year because they are made along the proper lines of engineering construction, combined with "Safety First" principles not found in standards of other manufacture. All Union Metal Standards have been designed by leading decorative designers of this country and are designed along correct architectural lines with the thought that the standard and lighting unit combined must be in good taste and not offensive to the eye.

The sectional construction greatly lowers the maintenance costs, owing to the fact that it is only necessary to replace a part, in case of accident, and not the entire standard, as is the case with the cast iron or concrete standard. The Hollywood Blvd. type of standard shown in the cut at the top of the Marbelite Poster was repaired and put in a first class condition at a cost of \$6.50, which receipted bill will be shown to any property owner. Compare this with the cost of a new concrete or cast iron post, at over \$150.00 each, in case of such accident. These maintenance costs are the expense to be met for the next 20 years or more after the system is installed and are much more important than any consideration of first cost. We invite the property owners to inspect the Marbelite installation on Figueroa Street, Los Angeles, which has been installed during the past few years. Compare the looks of this system, after only a few years of service, with the sample now in front of the Elks Club. You will find that practically every standard has been chipped or cracked and that they present a dirty appearance.

Cast iron standards are proving so unpopular, owing to the brittle material which is used and which is not reinforced to prevent damage in case of accident, and should not be considered for Colorado Boulevard. Many cities having formerly used cast iron standards have discontinued their use during the past few years owing to their high maintenance cost and the danger to lives and property by the falling of heavy masses of metal in case of collision. This is demonstrated weekly in Los Angeles where the installation of cast iron is being broken constantly.

We know that the property owners are fair-minded and we felt that it was our duty to present the other side of the case in place of the unwarranted attack by misrepresentation indulged in by the Marbelite Corporation.

Diet And Health

By LULU HUNT PETERS, M. D.

ANSWERS TO CORRESPONDENTS

PERSPIRATION

F. L.—The odor from perspiration is caused by its decomposition after it appears, or by waste products which it excretes from the body. There is very little solid matter excreted from the body by the perspiration, but sometimes where there is intestinal putrefaction and constipation; or when the body functions are upset in other ways, bad odors and substances may be excreted. There are two methods of combating this, through external and internal hygiene.

The external hygiene is absolute cleanliness with soap and water; and the application, if still necessary, of some substance which will neutralize the odor. It has been found that had odors of perspiration, on the feet especially, is due to a smelly germ called the bacillus fetidus. This odoriferous pest can be effectively silenced by a solution of one ounce of liquid formaldehyde to a quart of water. Rub some of this solution on, after washing and drying, every day for a week, and then once a week or so. Salicylic acid is also effective: Salicylic acid 10 grains; talcum powder, one ounce. Apply in the same manner—after bathing and drying parts, once a day for the first week and then once a week or so.

The internal hygiene is the balanced diet and free dismissal of the bowel contents at least once a day. We have articles on balanced diet and constipation which you may have by sending a self-addressed, stamped envelope with request.

CAN SHE REDUCE AND EAT BREAKFAST?

"Dear Doctor":—Just a line to let you know what a happy woman you have made of me. When I began dieting I weighed 249 and I dieted three months, losing 32 pounds. I have been resting for a while and now I am beginning again. I want to reduce to 155 pounds, a reduction of almost 100 pounds. There is one thing I find hard about dieting and that is, not eating anything for breakfast. Do you suppose it will be all right to eat two slices of dry toast and one poached egg for breakfast? I can't seem to do my work during the day if I don't eat something in the morning. When I have reduced to 155, I will write you again.—Mrs. M. B.

Yes, certainly you can have breakfast, Mrs. B. There are many who find they can go without breakfast without discomfort, and that leaves more calories for the other meals. But if you find you can't, then it is better to have one. Personally, I want my breakfast and I want it fervently. While the use of getting up in the morning if you can't have breakfast? My breakfast varies from 25 to 100 calories. I always have a cup of coffee (lately cereal coffee) sometimes with cream, and a cracker or a small bran muffin, without butter. Fruit is better for some, but I get my fruit in my other meals, or at tea time.

Social : Clubs

Edited by KATHERINE V. SINKS

D. A. R. Chapter

Renewing their pledge of loyalty to the United States and furthering the principles on which this government is founded, members of the General Richard Gridley chapter, Daughters of the American Revolution, met yesterday at the "First Congregational church, to begin their year's program, and in greeting the women, stressed the need for 100 per cent Americanism, particularly in the schools. She announced as chairman Mrs. M. R. Baird, Albion Street School work; Mrs. Brown, immigration work at Angel Island; Mrs. Sarah Dunn, D. A. R. manual for immigrants; Mrs. T. W. Preston, philanthropy. Revision of the bylaws was presented by Mrs. E. W. Woodward was adopted. Mrs. C. W. Houston, past regent, announced the reciprocity tea October 21 at the Mary Louise Tea room in Los Angeles, honoring the state regent, Mrs. H. T. Mannhart. Mrs. Helen S. Moir was received as a new member. Mrs. Mabel Franklin Ocker had arranged the program, Mrs. Helen K. Scripps giving a paper on "Lafayette."

Lunch in Park

Brookside park, Pasadena, provided the delightful setting yesterday for an outdoor meeting and fried chicken luncheon of the Literature department of the Tuesday Afternoon club. There were thirty women present to enjoy the beauties of the park, talk over vacation days, partake of the delicious luncheon and participate in an informal after luncheon hour. Mrs. F. L. Hollingsworth was chairman of the luncheon, serving a table prettily decorated with roses and ferns. After luncheon she introduced Mrs. R. W. Bolton, curator, who told of plans for the year; Mrs. Daniel Campbell, junior past president of the club, who spoke on "What the Department Means to the Club"; Mrs. A. H. Montgomery, club president, who told what she was going to expect from the department; Mrs. E. Hutchinson, past president of the club, who gave one of her inspirational talks. Mrs. J. A. Bolton was chairman of transportation.

Name Winners

Winners in the ticket selling contest for the benefit bazaar held Saturday night under the auspices of the Pythian Sewing club were Georgia Fellows and Margaret Coghlin, the former receiving the oil portrait from Dolberg's studio and the latter receiving one-half dozen \$20 photos from Ostrom's studio. Following are the names of the contestants and the number of votes they received: Georgia Fellows, 2712; Margaret Coghlin, 1792; Minnie Chrisman of Montrose, 1352; Betty Nichol of Los Angeles, 1090; Dea Sutton, 892. The proceeds from the affair were counted at the meeting held with Mrs. B. H. Fellows yesterday and a neat sum was realized. A meeting will be held next Wednesday at the home of Mrs. Fellows to decide whether or not the Pythian Sewing club members will work for any other pool.

Birthday Surprise

Mrs. F. E. Brown, hostess of the Kopper Kettle was given a most delightful surprise Tuesday night, when upon her return from a vacation trip, she found a number of friends gathered for a surprise birthday dinner in her honor. The dinner was served at the Kopper Kettle, the table being decorated with a centerpiece of lavender and pink. After the dinner the entire party motored to Los Angeles and attended the Criterion Theater. Included in the company were Mrs. Brown, Mrs. Isabelle Hahn of Hollywood, Mrs. Jessica Robinson of Los Angeles, Misses Ethel Roudeshush, Sigrid Berglund of Carmel-by-the-Sea, Miss Martina Hubbard and Miss Peggy Custer.

Meet at Church

There were 100 women in attendance at the monthly meeting of the Woman's Missionary society of the Central Christian church, held in the church parlors yesterday afternoon. Mrs. Linderman and Mrs. Crawford were leaders for the afternoon and the subject was, "What the Jubilee Year Has Achieved." Mrs. Frank Arnold, accompanied on the piano by Mrs. F. R. Ripley, gave two vocal selections and Mrs. Guy Fletcher entertained with solos. The next meeting of the society will be held November 5.

Opening Meeting

The first meeting of the fall of Chapter BA, P. E. O., is to be an all day affair tomorrow at the home of Mrs. Alice Ripley at 1310 North Maryland avenue. Meeting at 10:30 o'clock in the morning the women will enjoy a luncheon and later hold a meeting directed by the president, Mrs. Josephine Brant.

Class Hostesses

Mesdames Louis Sipple and C. R. Nicholson are to be hostesses Saturday afternoon at the meeting of the Friendship class at the First Congregational church on North Central and West Wilson avenues. The meeting will begin at 2:30 o'clock. Miss Helen Oman is to have charge of the social hour.

Plan Reception

"The Home," will be the subject for discussion at the first meeting of the Grandview Reading Circle to be held Friday afternoon at 1 o'clock at the teachers' rest room at the school. Study of the book "Misunderstood Children" by Elizabeth Harrison will be started. Meetings of the Reading Circle are informal and those attending are invited to ask questions and give their personal experiences. A special meeting of the executive board will be held promptly at 3 o'clock to plan for the teacher's reception. Mrs. John Ogle, president, urges everyone to attend the meeting prepared to give an idea for a rousing good time at the reception.

Two meetings a month will be held by the Reading Circle, on the first and third Friday. A social night for once a month has also been planned.

Parent-Teacher

Activities of the Doran Parent-Teacher association began yesterday with a meeting at the school. The meeting was in the nature of a get-together affair, there being a brief business meeting followed by an informal social hour. It was with regret that the members accepted the resignations of Mrs. Clark Johnson, because of ill health; and of Mrs. George Pierce, because of her arduous duties. Mrs. F. J. Flynn, vice-president, was named Mrs. Johnson's successor. Mrs. J. E. Helfrich Mrs. Flynn's successor, and Mrs. George A. Gallagher Mrs. Pierce's successor. Both are to serve as chairmen of Parent-Teacher association activities.

Chairmen serving during the year will be Mrs. Ray A. Gulick, membership; Mrs. J. F. Helfrich, finance; Mrs. L. R. Black, philanthropy; Mrs. G. W. Smith, patriotism; Mrs. J. T. Winderm, visiting; Mrs. G. C. Custer, courtesy; Miss Agnes Tupper, environment; Mrs. W. T. Gilliam, child labor and legislation; Mrs. Helfrich, juvenile protection; Mrs. E. D. Loudon, kindergarten; Mrs. Charles Chandler, emblems and magazines; Mrs. W. T. Potter, thrift; Mrs. Clark Johnson, program and publicity; Mrs. R. E. Henson, child hygiene; Mrs. George Pierce, community life; Mrs. S. A. Bruner, better films. The parliamentary is yet to be elected, and an education chairman named.

Auxiliary Meets

Plans were formulated for the Halloween party, October 29, at the meeting of the Woman's Auxiliary of the Spanish War Veterans' camp held last night at the Knights of Pythias hall at the corner of Park avenue and Brand boulevard. Much enthusiasm was shown at the meeting and a large crowd was present. Members of the Spanish War Veterans' camp are going to assist one of their comrades in building his house Sunday, October 5, and they will meet at the hall at 7:45 o'clock and go to his home. Auxiliary members will serve a lunch for the men at noon. The next meeting will be held October 15, when the department president will be present. Refreshments of cake and coffee were served by the president, Mrs. Warren, Mrs. Merryhew, senior vice, Mrs. Pie, junior vice, Mrs. Hall, secretary, and Mrs. Gray, treasurer. Members of the veterans' camp were invited in to enjoy the refreshments and during this time papers and credentials were read telling how Sam Ferguson of 1218 Yale drive carried the flag from Admiral Dewey's ship and planted it in the Philippines. Mr. Ferguson was present at the meeting last night.

Presents Motto

An inspirational motto was presented to the Mutual Benefit Reading circle yesterday by Mrs. C. H. Bird, president. The motto was on display at the meeting at the public library. It reads: "Seekers of Truth, Understanding and Wisdom, May help and bless all those with whose lives we come in contact." It will be hung in the library in order that the circle members may keep it before them during their meetings. At the meeting yesterday Mrs. Dodson reviewed the article, "Is There Something Wrong With Our Homes?" by Mrs. John D. Sherman, president of the General Federation of Women's clubs. R. Ernest Tucker talked on the bond election, and Mrs. H. V. Henry, chairman, continued reading from the study book, "The Trend of the Teens."

Mother's Birthday

Mrs. Minnie Patterson was delightfully honored yesterday afternoon at a birthday surprise party given by her daughter, Mrs. George Lyons of 359 Riverdale drive. A profusion of flowers, countless lovely gifts and many messages were features of the day for Mrs. Patterson. Mrs. Lyons had arranged an enjoyable afternoon. Games of buncos were played with Mrs. Earl Patterson and Mrs. Charles Rice winning the first prizes. Later the birthday luncheon was served, featured by a big cake of pastry and ice cream. The fagole humorous riddles. There were present besides the honoree and hostess Mesdames A. S. Chase, S. C. Packer, Earl Patterson, Richard Gilbert, Dennis McConnell, A. E. Wallace, Frank Rice, English, Oliver, Charles Rice, John J. Fraser, Boring and Nichols.

Personal Notes

Phone Personals to Social Department, Glendale 4000.

Mrs. F. E. Brown, hostess at the Kopper Kettle, returned Tuesday night from an enjoyable outing at Catalina Island.

J. Oakes and family of Hollywood moved to Glendale yesterday and are located at 1741 Gardena avenue.

Mrs. Lucy Laffin and son, Junior, of Los Angeles, were weekend guests in the home of Mr. and Mrs. R. S. Henry of 315 West Harvard street.

Mrs. Mildred Barnes, formerly of Glendale, now visiting at Long Beach, has been spending several days at the G. H. Rowe home at 216 South Orange street.

Mrs. H. E. Vale arrived Sunday from Long Beach and will spend a few days in the home of her daughter, Mrs. William Hunter of 107 East Lomita street.

J. L. Onstott of 620 North Central avenue has just completed a handsome four-flat building at 622 North Central avenue and has already leased three of the flats.

H. L. Hock, of 821 South Glendale avenue, who has been getting along nicely since an operation performed eight weeks ago, was reported as not resting so well today.

Ralph and Paul Hutchinson, sons of Mr. and Mrs. Charles Hutchinson, of 246 North Orange street, Glendale, have entered the University of Southern California at Los Angeles.

Mrs. W. G. Burkhart and two children, Junior and Beverly of San Diego, arrived last week to spend a month with the former's parents, Mr. and Mrs. J. D. Hall of 134 North Belmont street.

Mrs. W. W. Hall of 331 West Patterson street is looking forward to a visit from her cousin, Mrs. Jessie Beam of Denver, Colorado. Mrs. Hall expects her relative to arrive the last of this week.

Mrs. M. L. Richards, of Manhattan, Nevada, Mrs. M. Franklin of Los Angeles, Dr. Brown and H. M. Lennox were luncheon guests yesterday in the home of Mr. and Mrs. M. P. Harrison at 323 North Maryland avenue.

Richard McDermott, a veteran of the Civil War, 85 years of age, who has many friends in Glendale, has been spending the past month visiting here. He left Wednesday for the soldiers' home at Sawtelle, where he makes his home.

The many friends of Mrs. Charles Keith, 331 Fairview, Glendale, who has been confined to her home by illness for the past seven months, will be pleased to learn that she is now well on the road to recovery.

Harry E. White, who recently disposed of his residences at 600 North Jackson street for 240 acres near Merced, expects to leave during the coming month to spend some time on his new property. His ranch produces fruit and alfalfa.

Mr. and Mrs. Owen C. Emery of 610 West Myrtle street, accompanied by Mr. and Mrs. W. L. Hyde of 524 Alexander street returned late last night from a trip to Big Bear lake, where they went on a duck hunting trip. They made the trip by Mill Creek way and returned through the desert. The men were successful in bringing home some ducks.

Mrs. Roberta T. Young of 469 West Oak street is happy that her son, Lieutenant L. T. Young, U. S. N., is to be located during the winter at Point Firmin, San Pedro. He and Mrs. Young will make their home there. For the past five months Mr. Young has been in service in Washington and at San Francisco and has just been ordered to the U. S. S. New Mexico.

A group of teachers from the Glendale Intermediate school faculty motored to Los Angeles Wednesday afternoon to pay a visit to Miss Avis White, who has been confined to her home with a broken ankle. They found Miss White recovering and expect her back at school within two weeks, as she is now able to get about on crutches. Those who made the trip were Mrs. Anderson, Mrs. John Potts, Miss Gladys Sharpe, Miss Caroline Ainsworth.

Mr. and Mrs. F. G. Tracy and family, who left Glendale four months ago for their former home at Salem, Ore., have returned and will make Glendale their permanent home. They have located at 413 Arden avenue, in the house they occupied while spending the past winter here. Mr. Tracy, who is a contract carpenter, stated that on his return to Oregon he found business conditions so poor that he decided that it was his best interests to return to Glendale.

Give Card Party

Great success is reported from the card party given last night by the Knights of Columbus at their clubhouse at 330 East Lomita avenue. There were twenty-five tables for cards, with 125 persons attending. Prizes were won by Mrs. George Franklin, J. W. Hartman, first, and Mrs. Henrietta Farrow and B. Stumpf, second. After the cards an auction was held. T. J. Keleher getting the beautiful centerpiece made by Mrs. W. H. Killinger.

Deaths in England and Wales last year were the lowest in number since 1862.

Reception Honor

An informal reception honoring Mrs. Walter W. Gorman, formerly Mrs. Flora Perham, of Wichita Falls, Kan., who, with Mr. Gorman returned recently from a honeymoon trip to Europe, was given at the Gorman home, 215 West Chestnut street, yesterday afternoon by Mr. Gorman's daughter, Mrs. Elsie Levell and Mrs. Berier. Sweetpeas and carnations were used in an effective arrangement for the decoration of the home, and during the afternoon Miss Ruth Berier and Mrs. L. N. Hagood entertained with piano selections. Little Henrietta Roche of Los Angeles entertained with solo dances. Dainty refreshments were served later in the afternoon to the friends who had called to meet Mrs. Gorman.

With Mrs. White

Members of the W. C. T. U. will hold a meeting tomorrow afternoon at 2 o'clock in the home of Mrs. John Robert White at 347 North Orange street. Invitations have been extended to Glendale school teachers to attend and a large attendance is anticipated.

Bridge Luncheon

A bridge luncheon featured the Bridge club party held at the Oakmont club yesterday afternoon. Nine tables of bridge were arranged during the afternoon and prizes were awarded to Mrs. Wendt of Pasadena, first, and Mrs. Bowerman, second.

Hostess at Tea

Mrs. E. Kretchner of 120 Sinclair avenue, was hostess yesterday afternoon to women of the First Methodist church of the first division. The affair was in the nature of a tea.

Rodaire Club

Rodaire club members were entertained in the home of Mrs. J. D. McGowan, at Kent place, last night, needlework and music being the forms of entertainment. Miss Adele Spritz of Chicago, Miss Viola Smith of Wisconsin and Miss Dennison of Los Angeles were guests. A two-course luncheon was served later by the hostess.

HURT IN CLASH

Mrs. O. D. Mansfield of Randsberg was brought to the Glendale Sanitarium and Hospital last night, suffering from injuries received in a street car accident. The extent of her injuries had not been determined this morning.

Salt mines conducted by the government of Poland produced 363,000 tons last year.

CHAPTER LXVII

To be with Konrad, in the joy of confessed love and utter confidence, was all her world just now. It was all wonderful to Hilary, his simplicity, his unexpected greatness, his ecstasy in every hour they had together. Whether he was troubled and nervous, for her to soothe and reassure, or whether his masculine bigness and confidence were waiting to carry away her last worry and scruple over some detail of their plans, their happiness was all one. They worked over concert programmes, they laughed and disputed at the piano, they walked miles, passing a hundred significantly smiling, friendly faces without seeing one, and Hilary added to her languages the first verbs and phrases of still another.

There were other hours: the hours that would have been supremely important to Dora, but that to Hilary and Konrad were mere interruptions of their delight. There were concerts, when Hilary sat in a box, watching him with anxious closeness, and receptions and dinners when she had to share him with the world. It amused them both to know that she bore this latter trial infinitely better than he did. Konrad was constantly worried when she was not within hearing; his eyes traveled through the most distinguished assemblages to find the superb young figure, the bronze braids, and the white shoulders. If she was at the piano, he must somehow begin to work toward her; he would bend over her, absorbed, deeply resenting the presence of any innocent third person.

And if he could carry her off afterward, for a talk over some little restaurant table, or for tea with old Von Mandeschild and himself, in the studio, his black eyes would fill again and again as he told her how he had watched her—she had not looked at him at all—she had been enjoying herself too much—God, he would die, he would kill himself, if ever she ceased to care for him!

This association could not continue long without gaining the public attention. By Christmas time several of the astute weeklies that are so glib with names and facts had hinted it strongly, and early in the New Year, Konrad, his face radiant with laughter and pleasure, was openly receiving congratulations, and the lovely Miss Collier, with her demure quaint braids and her demure velvet frocks and babyish collars,

was the darling of the hour. But before this time, unknown to the world, several important events had transpired in the old Spaulding house in Madison Avenue. It was only a few days after Thanksgiving that Hilary had noted with a sick heart that the apparent harmony between Dora and Craig was a mere empty shell, and that some change of deep importance was brewing.

Her quick sensitiveness where Dora was concerned supplied the solution. The breach had not been healed; would never be healed between Butterfly and her husband.

Craig was quiet, responsive, interested in what concerned his mother and Hilary. But toward Dora he never looked, and to Dora he never went beyond the necessary civilities of the table or the drawing room. He was away often, in Mount Holly, and as the family was in mourning, it was easy for him to avoid society.

Hilary had been dreading, since that never-mentioned hideous night in the studio, the moment when Kronski and Dora must meet again. Konrad had made no allusion to the episode, indeed; women were so customarily infatuated with him, and he had been so amazed and stunned upon that occasion by the revelation of Violet's untruthfulness, and all it meant to him, that the probability of his fully grasping what Dora was implying in her excitement and incoherence seemed to Hilary more and more remote. Butterfly had had but a scant five minutes' conversation with him before Hilary's arrival; she had demanded his loyalty, she would have had time for no more, perhaps barely for that. Konrad's honest consternation at finding the sister of the woman he loved there in his room, at that hour, would further tend to make what Dora actually said the least important thing about her visit.

Still, there was something to forget, to overlook on his side, and what a world of shame and confusion on Butterfly's! Hilary felt the keenest apprehension regarding it, and she knew that the fear of it burned in Dora's heart. For a few days she suspected that Butterfly was actually meditating flight; indeed, she knew her sister well enough to know that that escape would be her natural thought. But after a few brooding, apathetic days, Dora seemed settled into certain, dreary grooves, and gave Hilary no further dark, vague hints of a

Louise Fazenda, the queen of comedy, plays the role of Deborah in the screen version of the Grace Flandrau novel, "Being Respectable." Dorothy Farnum adapted it for the screen and Phil Rosen directed it.

change, and of not being able to "stand it."

She and Konrad met quite simply in a department store just before Thanksgiving. Hilary and Konrad had been idling through the bright aisles of holiday wares, and Konrad had just bought her two hats of green stone, when they reached the glove counter, where Dora was seated.

She stood up, greeted the man with no sign of feeling except a sudden color in her pale face, and showed Hilary the white gloves. The buttons, or the snaps? Buttons were in again. Hilary displayed the hats.

"Imagine, Butterfly, fifty cents apiece! The little scarabs, see? Aren't they cunning?"

"They're charming. Sis! I've a good mind to get some myself. Mother's madly trying to find something like a hundred little presents for the girls of the Workingwomen's Club. Don't you remember she was talking of it at breakfast? I could give every one of them these."

"Oh, do, Butterfly!" Hilary said aloud. "There'll be such a jam in a few days!" In her heart she said, "You little thoroughbred, you!"

"But first I must congratulate Konrad upon winning the most wonderful wife in all the world," Butterfly said, giving him her little hand bravely. "I know what she is! There is nobody like her!"

"I shall try to be good to her," Konrad answered, simply walking toward the jewelry counter, towering black and grave above the little Dora. "See, here are the pins, and we shall find out exactly how many we may buy for the working ladies!" he added, gaily.

That was all. In another moment they were busily comparing conversation with red, and the conversation was what it might have been a week ago. Butterfly sank into her usual quiet, in the motor, driving home, and made no comment upon the episode to Hilary.

In these days Dora was an altered being. She lived in a dark, sad world of her own, and was often, sometimes raging and furious, but usually cold and self-contained. She rose late, dressed in sombre silence, saw her hairdresser and her manicure, went to her dentist, lunched

at home with perhaps a languid conversation dying between her and Craig's mother, went out in the car at three, to wander listlessly through shops or look with darkened eyes at the bare parks, and came home to curl up over a book until dinner time.

Others in the cast, beside Miss Fazenda, are Marie Prevost, Monte Blue, Irene Rich, Theodore Von Eltz, Frank Currier, Eulalie Jensen, Lila Leslie, Charles French and Sidney Bracey.

THE GLENDALE
"In Fast Company," with Mildred Harris is the chief attraction today, Friday and Saturday at the Glendale Theater.

THE T. D. & L.
Rafael Sabatini's famous picture "The Sea Hawk," directed by Frank Lloyd, continues at the T. D. & L. Theater.

Complaints that the royal family of England paid no attention to style have recently been quieted by the appearance in public of the queen wearing a modish scarf, and Princess Arthur of Connaught, sporting a tall pudding basin hat.

at home with perhaps a languid conversation dying between her and Craig's mother, went out in the car at three, to wander listlessly through shops or look with darkened eyes at the bare parks, and came home to curl up over a book until dinner time.

'CAP' STUBBS—Cap's Out Of Luck!

THE BAXTER BEASLEYS—

Uncle Wiggily

By HOWARD R. GARIS

UNCLE WIGGILY AND BUNTY'S BOUNCER

One hot day, when Uncle Wiggily hopped into his hollow stump bungalow, feeling rather disappointed because no adventure had happened him, he heard Baby Bunty crying in the kitchen.

"What's the matter with my little bunny girl?" asked the rabbit gentleman, for Bunty often came over to visit him, though she did not always cry.

"Oh, Uncle Wig!" sobbed Bunty, who was an orphan. "I now—I've lost my bouncer!"

"Lost your what?" cried Uncle Wiggily.

"My bouncer," said Bunty, sobbing again.

"What in the world does the child mean?" asked Mr. Longears of his muskrat lady housekeeper.

"Oh, it's just her rubber ball," explained Nurse Jane. "She came home from playing near the spring in the woods, and she was crying and said she had lost her bouncer."

"And I did lo—lo—lose it!" cried Baby Bunty. "I had my rubber ball—and I call it a bouncer 'cause—now—'cause it bounces! And I was filling it with water at the spring and squirting the water out of the little hole in the bouncer. I heard a noise and it scared me and I dropped the bouncer and ran away and now I haven't got any bouncer! Oh, dear! Eoo, hoo!"

"Don't cry, Bunty," spoke Uncle Wiggily kindly. "I'll get the bouncer back for you."

Telling Nurse Jane and Bunty that he would be back in time for supper, Uncle Wiggily hopped over the fields and through the woods to the spring where the little rabbit girl had been playing. It was a hot, still afternoon in October.

"I guess Bunty just heard the wind whistling through the trees and she thought it was the Bob Cat meowing," said Uncle Wiggily to himself as he reached the spring, looking around but seeing no danger. And there, on the ground, he saw Bunty's rubber ball, her bouncer," as she called it. Uncle Wiggily picked it up and then, seeing the cool, inviting spring, he said:

"I'll take off my clothes and have a little swim before I go back. And I'll squirt some water from Bunty's bouncer to make sure it's all right."

Piling his clothes on the bank, Uncle Wiggily dipped himself into the rubber ball at the Bob Cat, whose back was toward him. Then the rabbit squeezed the bouncer. "Squishy! Squashy!" went a lot of water all over the bad chap!

"Oh, it's raining! It's raining and I haven't any umbrella!" howled the Bob Cat. "I must run

home and get my umbrella! Then I'll come back and catch Uncle Wiggily when he comes for his clothes!"

The bunny squirted more water from Bunty's ball on the Bob Cat, making him run faster than ever. And then Uncle Wiggily hopped out of the spring, dried himself by rolling in the grass, dressed himself and hurried home to his bungalow.

"Here's your bouncer, Bunty!" he cried, "and I had a jolly good adventure finding it for you!"

And Bunty laughed and played with her ball until supper was ready. So everyone was happy but the Bob Cat, who was much disappointed to find it wasn't raining after all, and that the bunny had teased him.

Mrs. M. L. Tight of 423 West Third street has returned from a business trip to Coachella valley, bringing with her all the thrills and excitement of the Sunset train hold-up near Colton. She was one of the passengers.

DESIGN NEW PLANES

LONDON, Oct. 2.—Details are beginning to be revealed of several new types of aircraft specially designed by the British government for naval use. Many secret unique features are embodied in the new machines, it is reported. One of them is that they are all equipped with a small, specially designed lifeboat fitted alongside the hull in such a way that it offers little or no wind resistance. The most important of the new planes is a giant flying boat, officially stated to be the largest in the world. Its hull measures seventy feet from stem to stern, and it will comfortably carry a crew of six.

More than three and one-quarter millions of canaries have been brought into the United States during the last ten years, which is an average of more than 300,000 each year.

STOP CATARRH

This New Easy Way

Catarrh of the head, stomach, etc., is responsible for much misery and failing health. If you are a sufferer from wheezing, sneezing, difficulty breathing, bad breath, indigestion, raising phlegm, etc., to prove that you can stop these troubles quickly and easily with the pleasant, scientific Florence Combination Treatment. I will send you a treatment absolutely free and postpaid. When your catarrh is gone you can repay the favor by telling other sufferers. Mailed send your name today for my free treatment. This offer is good for only 10 days. FLORENCE LABORATORIES. 110 Coca Cola Bldg., Kansas City, Mo.

CAN'T BREAK CONCRETE

JEFFERSON CITY, Mo., Oct. 2.—What is believed to be a virtually indestructible concrete mixture for Missouri roads has been found by the State Highway Department test laboratory. A cylinder of solid concrete, a specimen of a mixture being used by a road contractor in Newton county, was sent to a laboratory for a test. The requirement was that it was to stand a total pressure of 84,000 pounds without cracking or disintegrating. The cylinder stood a test of 200,000 pounds, or 7,500 pounds to the square inch, which was as high as the laboratory apparatus registers.

O'CONNELL TELLS OF PART IN BASEBALL BRIBE PLOT

Former Coast Player Declares He Is Being Made 'the Goat' in Scandal; Confesses Offering Money to Heinie Sands

(Continued From Page 1)

"I replied Heinie. 'We're just finishing the season and don't care who wins.'"

"I said to Heinie: 'I'll give you \$500 if you don't bear down on us too hard.' He just answered, 'Nothing doing.' Then I walked back to the bench and told Dolan what Sand had said. Cozy didn't say anything."

Here O'Connell stopped in his recital. He was as depressed as any ballplayer that ever sank into baseball ignominy ever was.

"I've been a damned fool," he blurted out. "I didn't want to get into a mess like this, but I was just following out orders. I don't know what I'm going to do now except that I'm going to wait here until Dolan shows up and call him a liar to his face. He kept telling Commissioner Landis 'I don't remember, I don't remember,' when Landis was questioning us."

"Didn't you think it was funny that such an offer as you say it was, should come from Dolan?" the player was asked.

"No, I didn't think it was funny. The whole team seemed to be in on it," O'Connell retorted.

Now He's Outcast

"Have you heard of any other bribery attempts during this season?"

"No, I haven't," O'Connell said. O'Connell, feeling the outcast he is, shambled away, waiting for Dolan to appear—the thing at the moment nearest his heart since he feels that he is the "goat."

Pep Young strolled into the clubhouse and was asked what he had to say about O'Connell's story that Young knew all about it. Young denied it.

Sand's Story Cause of Immediate Investigation

By LARRY SMITH

For International News Service.

NEW YORK, Oct. 2.—The ugly fur of baseball scandal, swiftly raising its snaky head and as quickly scotched, today left New York fans its bitter aftermath, just as it left the National League champions without two members of their staff on the eve of the world series.

In addition to the stigma cast when Judge K. M. Landis, commissioner of baseball, declared two Giants ineligible and banished them from baseball, the blow delivered late last night as the Giants prepared to entrain for Washington, meant possible further shifting of John McGraw's crippled line-up.

Jimmy O'Connell, \$75,000 outfielder, who, with Cozy Dolan, veteran Giant coach, was declared guilty of attempting to bribe Heinie Sand, Philadelphia shortstop, into throwing a game, with a possible choice for center field.

Conduct Inquiry

Judge Landis departed for Washington almost immediately after announcing his ruling, based on the confession he said O'Connell made to him that O'Connell offered Sand \$500 to throw the game at Philadelphia last Saturday, on which the National League pennant hung. Sand refused the alleged offer and immediately reported it to Manager Fletcher of the Phillies.

John A. Heydler, president of the National league, and officials of the New York club, assisted in the immediate investigation which led to a trial of O'Connell and Dolan in Judge Landis' hotel room last night.

Giant fans today gave as little credence as did Landis to the alleged attempt of O'Connell to implicate in the deal Captain Frank Frisch, Ross Young, outfielder, and George Kelly, first baseman of the Giants. After questioning them, Judge Landis was convinced, he said, that they knew nothing of the bribe. Dolan was unable to convince Landis that he had not suggested the idea, as O'Connell charged.

Praise for Sand

Before departing for Washington Judge Landis expressed his surprise that such a seemingly useless move should have been made by the banished players. The Giants needed but one more game to win. They beat Philadelphia, 5 to 1, while Brooklyn was defeated by Boston, after Sand refused the alleged offer Saturday.

"It is deplorable that any player should attempt to win by dishonest methods," Judge Landis said. "It is a source of deep regret to me. The one thing that compensates the whole thing is the thought that a majority of players are honest and the action of Player Sand in reporting the latter to his manager was highly commendable."

Heinie Sand reported to the Phillies this season from the Salt Lake club of the Pacific Coast league, where he played against O'Connell before the latter was purchased from the San Francisco Seals. O'Connell reported last season, after bringing what was at that time a record price for a minor league player. He did not make a regular place in the Giant lineup, but was used as pinch hitter and as utility outfielder.

In his statement of his official

DYNAMITERS AND MOVIE LADS PLAY

Fast Game Is Promised for Tomorrow Afternoon on Local Gridiron

By ROSS M. RUSSELL, JR.
Of The Evening News Staff.

The Glendale High Dynamiters meet the Hollywood High eleven tomorrow at 3 o'clock on Broadway field in an important pre-season game. The Movie City lads are reputed to have a strong outfit, although Coach Normal C. Hayhurst of Glendale expects to come out on the top end of the score, he expects a hard fight.

Coach Kelly's team is regarded by newspapermen to be a strong contender for the Los Angeles City league pennant. Kelly got a late start, owing to some difficulty in his salary, but has succeeded in building up a strong, fast, light team.

The Dynamiters who have been out with injuries have thoroughly recuperated, and Hayhurst expects to be able to start all of the regulars in the game. "Fighting Dick" Ryan, captain and halfback, as well as the bench team, who was on the bench at the Glendale-U. S. C. frosh game, will probably be seen in the Glendale backfield tomorrow.

"Bud" Elliot, who starred for the Dynamiters in Saturday's fracas, will call signals as usual for the locals. Positions of left half and fullback are undecided. Jack Ward played his first game of football against the frosh, and performed very creditably. Either Ward or Harry Fish, who has been out with a bad leg, will start against the Movie boys at left half, while Carl Denney or Elmer Muir, both of whom got in the U. S. C. game, will probably play safety.

It is probable that the same line which started Saturday will be sent against Hollywood. Cecil Zaun, the old standby, will snap the ball, with Dixon Fannon and Warrion Morrison as guards. "Broogy" Phillips and Lewis Dotson as tackles and Ellsworth DeParco and Leslie Lavelle as ends.

Substitutes who expect to get in the game are: Jack Booker and John Parker, half or fullbacks; Charles Lundie, guard or tackle; Bill Bradbury, John Habbick and Eugene Drury, line.

BEARS READY TO MEET ST. MARY'S

Andy Smith Thinks Team Play Better After Game With Santa Clara

By JOHN LEE
Written for The Evening News

UNIVERSITY OF CALIFORNIA, Oct. 1.—A much wiser and more dangerous Bruin varsity, than the nervous, crippled aggregation that met the Santa Clara Broncos last week will line up against St. Mary's next Saturday in the California Memorial Stadium.

Andy Smith is putting his varsity squads through stiff workouts each evening in preparation for the battle. The backfield is being drilled on drop-kicking in the hope of developing a steady point adder. Boles Rosenthal is busy patching up the line that had such a hard time holding against the onslaughts of Chisholm, star Santa Clara halfback. The line will doubtless be more efficient next Saturday with Carey, Green, Thatcher, Niswander, and Lewis off the sick list.

Carey is back in uniform but his injured leg will probably bother him all season according to trainers. Thatcher, who was out of the game last week with an infected leg, is back in practice and will be able to play at end next Saturday. Niswander and Lewis, who played the Santa Clara game in spite of injuries, are rapidly improving and should be entirely recovered by the end of the week. Rau, first string guard who fractured an elbow in scrimmage last week, will be unable to be out in a suit for at least two weeks more.

Slip Madigan's Saints seem to be in good condition. The team is largely composed of last year's varsity men who are now in their fourth week of practice. They easily defeated Duke Holdre's Mare Island Sailors last Sunday by a score of 46-0, and California is forced to take them seriously for the first time in years.

Association to Boost Full Vote November 4

Members of the Glendale Advancement association will take an active interest in getting a representative vote in Glendale at the general election on November 4, it was decided at a meeting of the organization held today noon at the Harriett Mae Tea room. The suggestion that the association take the initiative in inducing Glendale voters to go to the polls on that day was made by Mrs. Jessie Russell, and President C. W. Ingledue appointed Herman Nelson, W. M. Mills and Mrs. Emma G. Burett as members of a committee to draft a suitable slogan and report at the meeting next week.

Altrock Hits 1.000 For Season; Scott Sets Game Record

NEW YORK, Oct. 2.—Two marks of widely dissimilar character were compiled on the final day of the American league season, local statisticians discovered today. The first was made by Everett Scott, shortstop of the defeated Yankees, who completed eight and a fraction seasons in baseball in the major leagues without missing a game, taking part in 1290 consecutive games in all.

The second was made by Nick Altrock. He topped all American league batters with a perfect record, having made a single hit, a triple, in his only appearance of the season in Boston Tuesday.

BRYAN BLANKS SENATOR GANG

Tigers Roll Up Four Points And Win Second Game; Angels Defeated

By THREE STRIKES

For Southland News Service.

LOS ANGELES, Oct. 2.—Ed Bryan proved too good for the Sacramento Solons at the ball lot yesterday and the Tigers blanked the visitors, 4 to 0, making it two wins in a row. Carroll Canfield carried on the other end of the pitchers' duel with Bryan and held the Bengals to five safeties while the Senators were gathering eight off Bryan's offerings.

The Eslick crew, when his meant runs while Ryan's help reaped nothing from their efforts with the stick. Both clubs shifted their lineups which proved to be a wise move after the terrible demonstration on the previous day.

Vernon took an early lead, pushing one tally over in the opening frame when Schneider walked, took third of Oliver's single and scored on Hannah's sacrifice fly to Gorman. Another marker was chalked up in the sixth on an error, an infield hit and a deep single. To clinch the contest, the home crew touched Canfield for two more in the eighth on a single, a double and a wild pitch.

The Angels dropped the first game of the series with Seattle yesterday, 9 to 4. The Indians used three Seraph twirlers during the pastime, Root, Myers and Ramsey doing mound duty.

The Salt Lake Bees took their second straight from Oakland yesterday by a 6 to 5 count.

La Barba Quits A. A. U. To Start Pro Boxing

Fidel LaBarba, amateur flyweight champion of the world, has turned in his A. A. U. card and will enter professional ranks, according to announcement made by George Blake of the L. A. A. C. who has handled the Los Angeles scrapper in the past. LaBarba will start immediately and will make his appearance in the Vernon and Hollywood rings, according to Blake, who will also manage the fights for the little battler in the future. LaBarba will undoubtedly be a drawing card in any ring he steps into.

Southern California fans have watched him for the past year, saw him go to the Olympic games and return victor, and also saw him defeat everyone in his class in amateur standing locally. He has championship caliber for the professional game, according to the dopesters, and his future will be watched eagerly.

Mondt and Lewis to Meet on Mat Again

Joe "Toots" Mondt and Ed "Strangler" Lewis will meet in a return wrestling match at the Washington ball park in Los Angeles Monday night. Announcement of the agreement of the two grapplers to meet was made by Lou Daro, who staged the great match between the two at the Philharmonic auditorium last week, in which Mondt squirmed his way to a draw with the world's champion. Lewis will again be risking his crown and many predict that age will tell on the stranger and that Mondt will be returned the world's champion. Daro has secured the ball park in order to accommodate the huge crowd which is expected to attend.

TROJANS GET TEST AGAINST POMONA

Sagehens Figured Stronger Than Caltech; U. S. May Find Tough Going

LOS ANGELES, Oct. 2.—After establishing itself in its opening game with Caltech as one of the most powerful eleven that has stepped on a western gridiron in recent years, the University of Southern California will have its defensive strength tested for the first time this year when it meets Pomona college in the Coliseum Saturday.

Coach Eugene Nixon brings into town from Claremont for the annual Sagehen-Trojan struggle one of the smoothest-running grid clubs that has represented Pomona in recent years. The Pomonans lost only one letter-man this season from a team that won the Southern California Conference championship in 1923.

Pomona Has Class

The first string line-up that Pomona will pit against the Trojans smacks of class. Behind a line that is composed of all experienced men, with the exception of the sophomore center, who is taking Captain Nooney's vacated place at the pivot, Nixon has an all-veteran backfield. Clark, Merritt, Bell, and McCulley form a ball carrying combination that a lot of the conference colleges can well envy, and who will probably give the Trojans one of their most uncomfortable afternoons of the season.

The Trojan line positions are at present filled by men who have a good chance of holding them all year. "Indian" Newman went surprisingly well at center last week. He is probably stationary at the pivot until Halley Adams returns to the lineup. Correll and Dupuy are leading the race for the guards, but Taylor, Hershberger and Behrendt will give them both trouble in staying there. Fay Thomas and Norman Anderson looked all-conference calibre at the tackles in the first game. Bill Cole is going to be a great alternates to these boys. Dorsay and Pythians are still the leading ends.

Speedy U. S. C. Backs

Johnny Hawkins at quarterback; Henry Lefebvre and Manuel Laraneta at the halves; and "Honey" Earle at fullback, was the starting combination last Saturday. This four still seems to have the "call" on the rest of the ball carriers.

This backfield presents the best offensive combination that Henderson has been able to get together in one group so far. Hawkins' ability as a ball carrier was shown to be equal to any man on the Trojan squad in the Caltech game. Lefebvre and Laraneta are going to be the sensations of the conference with their spectacular open field running. "Honey" Earle is being called a second "Hobo" Kincaid. His line plunging is already superior to the famous "Bo's" and he should be the equal of Kincaid on the defense before the season is over.

This backfield is not a fixture, however, for Henderson has a host of star men "breaking their necks" trying to get on the first string. "Indian" Newman will break into combination when his services are not required at center. His great passing ability makes him a man to have in there at every stage of the game. Bill Cook, out with an injured shoulder, will give the rest of the boys a bid for a position when he is recovered. Bob Lee, the big blonde sophomore, and Morton Kaer, the speedy hurdler, gave exhibitions of fast ball packing last week that made them certain to play part of the time this year. Otto Anderson is another halfback to watch.

Mondt and Lewis to Meet on Mat Again

Joe "Toots" Mondt and Ed "Strangler" Lewis will meet in a return wrestling match at the Washington ball park in Los Angeles Monday night. Announcement of the agreement of the two grapplers to meet was made by Lou Daro, who staged the great match between the two at the Philharmonic auditorium last week, in which Mondt squirmed his way to a draw with the world's champion. Lewis will again be risking his crown and many predict that age will tell on the stranger and that Mondt will be returned the world's champion. Daro has secured the ball park in order to accommodate the huge crowd which is expected to attend.

Fred Fulton Is Picked For Bout With Firpo

NEW YORK, Oct. 2.—As the writer predicted some time ago, they are going to drag Fred Fulton into the white lights once more. Fred is an important part of the scheme to resurrect Luis Firpo's punctured rep.

The plasterer will be Firpo's opponent in Madison Square Garden late this fall if the federal authorities do not decide that Buenos Aires' sunny clime is better fitted for a man of Luis' romantic tendencies.

The idea is that Firpo will beat Fulton as quickly as Willis did, and will show that he is coming back as the Wild Bull of old.

Farren Easily Wins Over Freddy Wilder

Crashing a right uppercut to the chin in the second round which sent Freddy Wilder down for the count of nine, Frankie Farren, flashy Bay City battler, tore into his opponent and won the main event with a wide margin at the Wilmington athletic club last night. Tony Fuente chalked up another knockout on his list when he defeated Sunshine McClure in the second round after flooring him three times. In the special event, Buck Curtis climbed all over George Sherman, winning every round of the four. Plenty of action was delivered in the curtain raiser and preliminaries, when the light battlers floored each other often.

But Fulton, on the other hand, is credited with a nature of such extreme kindness that he lets the other fellow do the real fighting. If some one ever could push him into a ring, not beaten before a blow was struck, or shortly afterwards, Fred could make himself a lot of money.

On the level, Fred can lick Luis if he goes after him. Firpo is a hollow shell of what he was when he met Dempsey.

REAL ESTATE FOR SALE

GLENDALE PROPERTY

FOR SALE

Let me show you a two-story new stucco in lovely Rossmore that you will fall in love with. This was built for a home and nothing was left out. It has a lot of room. This property can be bought two thousand under value.

FOR SALE

A beautiful lot on the high ground in the East. Some of the most beautiful homes in Glendale built on the adjoining lots, magnificent view. Snap this lot in the East has authorized me to sell at a price some hundreds of dollars less than other lot in the vicinity. Terms.

FOR SALE

1 acre of full-bearing fruit trees, 7-room modern bungalow, dome ceiling, built-in kitchen, beautiful carved stone fireplace, large breakfast room, sleeping porch, 15x20, equipped laundry in concrete with garage. This property is located in one of the finest parts of the city, close to transportation, grade and high school.

Don't miss this opportunity; very easy terms.

FOR SALE—HOME AND TWO ACRES

2-story house, modern in all details, in the foothills of beautiful Verdugo Woodlands, close to main hwy., large oak trees, lots of shrubbery and flowers; here is something very unusual; pure mountain water, good fruit trees, on property piped to house; also city water and other city utilities; wonderful view; few blocks from Oakmont Country club and golf links; to see this property go to fall in love with it. Owner called north; will make a big sacrifice; easy terms; furnished or unfurnished.

FOR EXCHANGE

Three acres, set to walnuts, and a modern bungalow at Baldwin Park, only fifteen miles East. Here in the noted fruit and poultry section, best soil money. Abundance of cheap water, seems like believing. Let me show it to you. Exchange for Glendale.

FOR EXCHANGE

I have another ten acres at Pomona, walnuts and a fine variety of full bearing fruit trees, good house and out buildings, corner on through boulevard. Finest section for fruit, nuts or poultry. Exchange for income. Glendale, Los Angeles, or vicinity. Inquire

**PRETTY WEDDING
CEREMONY HELD**

Miss Evelyn Ashman Is
Bride of E. E. Moniot In
Church of Angels

Beautiful in all its appointments was the wedding of Miss Evelyn Elizabeth Ashman to Edward E. Moniot, which took place at the Church of Angels, at Garvanza, last night, Wednesday, October 1, 1924, at 8:30 o'clock, before a large assemblage of relatives and friends. The ring ceremony was performed by Rev. Parke, pastor of the church. The church, which is arranged on the interior in a picturesque manner, was decorated with pink dahlias and ferns, and candles were used in profusion to light the church, casting a soft glow of light.

The wedding march from Lohengrin was played by the church organist and as the first strains of the march were played the bridal party marched slowly down the aisle. The ushers led the party and were followed by the bridesmaids, maid of honor, flower girl, bride and her uncle.

The bride's wedding dress was a beautiful creation, fashioned of white georgette crepe and silver lace with white handmade silk flowers and silver ribbon as corsage trimming. Her head dress was a coronet of pearls and rhinestones fastened to a silk tulle veil which was ruched high in back and caught with a circular wreath of orange blossoms. She wore silver slippers and white kid gloves. Her bouquet was a bride's shower of roses and lilies of the valley. The maid of honor, Miss Louise Moniot, sister of the groom, was gowned in peach georgette trimmed with lace. Her hat was made of gold lace and she wore gold slippers and white gloves. Her bouquet was of orchid sweetpeas and pink rosebuds. Little Betty Roof, attired in a fluffy dress of blue taffeta acted as flower girl and carried a small basket of sweetpeas.

The bridesmaids all wore taffeta dresses in pastel shades and their hats were made of velvet and gold metal cloth with a plume on the side, the color of the material used in each hat harmonizing with the dresses. Miss Amie Miller, cousin of the bride wore apricot taffeta and silver slippers; Miss Linda Goertz was gowned in a pale green dress with the gold slippers; Mrs. Lester L. Johnson, (nee Miss Eloise Francy) wore an American Beauty taffeta with gold slippers; and Miss Lois Mock wore orchid with silver slippers. Each carried a bouquet of flowers in pastel shades.

The bride was given in marriage by her uncle, William W. Dutton, of 104 East Cypress street. The groom was attended by his brother, Julius Moniot.

Reception Afterwards
Following the ceremony a reception was held at the home of Mr. and Mrs. E. Moniot at 414 West Los Feliz road for relatives and a few intimate friends. A dainty luncheon was served by the bridesmaids. Tables were arranged on the lawn, one table being decorated with a large elaborately decorated wedding cake. After the ceremony, Mr. and Mrs. Moniot left for a honeymoon trip to San Francisco where they will remain for ten days. For traveling Mrs. Moniot wore a poudre blue sport outfit. A new home is being erected at 4401 Edenhurst place and on its completion the newlyweds will move there to reside.

Employees of the Glendale Savings bank presented the couple with a purse of gold coins and Mr. and Mrs. W. S. Perrin gave them a chest of silverware. Other wedding gifts included a set of dishes, electric appliances, bridge lamp, cut glass, linen and silverware. Mrs. Moniot was employed in the Glendale Savings bank for four years, two years of this time being private secretary to W. S. Perrin, president of the bank. Mr. Moniot has resided in Glendale for eighteen years and is engaged in the barber trade. He served in the army during the World War.

**Arm Broken on Trip;
Drives With One Hand**

Horace Anderson, son of Mrs. Anita K. Anderson, of 131 West Magnolia avenue, arrived home Monday with the unique record of having driven a car from St. Charles, Mo., with one hand. Young Anderson spent two months in Chicago and then started his motor trip west alone. At St. Charles he had the misfortune to break his left arm, and was forced to drive his car with one hand the rest of the way.

**Workers In Engineer's
Office to Hold Dance**

"A Night at Monte Carlo" will be given by the employees of the Glendale city engineers' department at the American Legion hall, at 610-A East Broadway, Saturday night, October 4. A committee is arranging for the affair and an enjoyable time is assured those who attend. The festivities will begin at 7:30 o'clock and will include dancing and several other forms of entertainment. An admission fee will be charged.

Lloyd George has a moving picture outfit in his home.

Piggly Wiggly Hostess

CHARLOTTE STEVENS, well known motion picture star, who will officiate as hostess Saturday and demonstrate the Piggly Wiggly way to shop when a new store is opened at 403 Los Feliz road. Miss Stevens has many friends in Glendale and will be the house guest of Mrs. Charles A. Nagle, 321 West Maple avenue, while here.

Charlotte Stevens, who has appeared in a number of motion pictures under the Thomas Ince banner, and has been a featured player in many productions from other studios, will officiate as hostess at the new Piggly Wiggly store, which will be opened Saturday morning at 403 Los Feliz road.

In addition to the appearance of Miss Stevens, which is scheduled for 3 o'clock Saturday afternoon, there will be music by an orchestra throughout the afternoon. The company will give \$100 in cash prizes to the persons guessing the nearest to the number of persons who pass through the turnstiles on the opening day.

Wholesale grocery firms are planning to send demonstrators to Glendale for the opening ceremony and nationally known products will be explained. Hundreds of samples will be given away, it is announced.

While in Glendale, Miss Stevens will be the house guest of her niece, Mrs. Charles W. Nagle, of 321 West Maple avenue.

On Steep Highways**

(Continued From Page 5)

canyon from Wilson avenue and is the route of the new bus line. Few cars make it in high, according to Claude Hunter, who declares that the above tests prove the new light-six Oldsmobile is in a class by itself. "Few large-bored engines of great horsepower can equal the performance of this sturdy little Olds," declares Mr. Hunter. "Although the S. A. E. rating gives it only eighteen horsepower, because of its 3 3/4 inch bore by 4 3/4 inch stroke, it nevertheless develops forty-two horsepower by actual brake test—and this is the secret push that sends it sailing up the hills.

"One reason why this Olds motor develops so much power is because of its wonderful oiling system, by which every rotating bearing is under direct oil pressure, as is the case with the famous Liberty motors used in government airplanes."

Perplexing Problems**

(Continued From Page 5)

well as the Mecca-Blythe fork of the same road. It is proposed to replace the present plank road across the desert stretch with packed clay on a raised embankment in which a macadam oiled surface will be embedded. The raised road will defeat the wandering sand dunes, it is said, while the clay will not crack under the heat and the rock and will provide a compact.

OPERATED ON

Major operations were performed this morning at the Glendale Sanitarium and Hospital on C. M. Sandys of Los Angeles; Mrs. F. S. McKenna of Los Angeles; Rev. J. Marsh of Yorba Linda. Mrs. W. E. Harris of 207-D North Isabel street underwent minor surgery, and Mrs. J. Monahan of 1424 North Columbus avenue is a patient at the same institution.
